Policy S-4
FLORIDA STATE UNIVERSITY
COLLEGE OF NURSING

TITLE: CLINICAL CLEARANCE

POLICY: Clinical Clearance is required for a student to participate in a required clinical experience. Any lapse in Clinical Clearance may result in the student being dropped from courses.

RATIONALE: For the health and safety of nursing students and the patients encountered in the nursing program, the FSU College of Nursing and participating agencies require current documentation of CPR, health insurance, health status and currency in immunizations. Clinical Clearance will be issued when all documentation is complete.

PROCEDURE:

For All Students Enrolled in College of Nursing Programs:

1. It is the responsibility of each student to provide documentation for the following and upload this documentation to your clinical clearance account

   ▪ College of Nursing Immunization Form
   All students must provide proof of the following immunizations or titer results upon admission to the College of Nursing: polio, diphtheria, tetanus, MMR (measles, mumps, rubella), varicella (chickenpox), hepatitis B series. (See Attachment #1 – Policy on Health Examination and Immunizations)

   ▪ TB/PPD Test Results
   All students must provide proof of a negative PPD test upon admission to the College of Nursing, which must be updated annually. (See Attachment #1 – Policy on Health Examination and Immunizations) Students who have positive results must provide documentation from a health care provider and submit an annual review of symptoms. (See Attachment #2 – Positive PPD Test Results – Tuberculosis Symptom Questionnaire)

   ▪ Influenza Vaccine
   All students must provide documentation on having a current seasonal Influenza Vaccine during Fall Semester. For those students who cannot receive the flu vaccine documentation must be submitted from a healthcare provider explaining reason for not take the immunization and alternate clinical placement may be required. If an alternate clinical
placement is not available, the student may not be able to progress in the nursing major.

- **Essential Functions / Technical Standards Required of Nursing Students Form**
  All students have a complete physical examination and have an appropriate healthcare provider sign off on this form upon admission to the College of Nursing. *(See Attachments #3 and #4)* If you believe that you cannot meet one or more of the standards listed without accommodations or modifications, it is your responsibility to request appropriate assistance and guidance from the faculty and/or college administration *(See College of Nursing Policy S-3)*. It will be determined, on an individual basis, whether the necessary accommodations or modifications can be made reasonably.

- **CPR Certification**
  All students must provide proof of CPR certification upon admission to the College of Nursing, which must be updated upon expiration. A copy of the certification card that includes expiration date must be uploaded to your clinical clearance account.

- **Criminal History Background Check**
  All students must submit to a FDLE/FBI Level II Background Check upon admission to the College of Nursing, as well as a Certified Background Review, which includes the Patriot Act, Social Security Alert, Sex Offender Index, Employment Verification, Nationwide Healthcare Fraud & Abuse Scan, Residence History, Local Criminal Check based on county of residence for last 7 years. *(See College of Nursing Student Policy #S-2 – Criminal Background Check)*.

- **Affidavit of Good Moral Character**
  All students must submit this notarized form on an annual basis following the initial background screenings. *(See Attachment #5)*

- **Personal Health Insurance**
  All students must provide proof of personal health insurance coverage upon admission to the program.

- **10 Panel Drug Screen**
  All students must submit to a 10-panel drug urinalysis screening. *(See College of Nursing Student Policy #S-5 – Substance Abuse)*
**Current unencumbered/unrestricted Florida RN License**

Students enrolled in the graduate nursing program must provide proof of a current unencumbered/unrestricted Florida Registered Nurse license prior to enrollment in the program. Licensure must be active and unencumbered/unrestricted throughout enrollment in the nursing program.

2. This documentation must be on file and current to obtain clinical clearance. It is the responsibility of the student to provide updated information and to obtain clinical clearance prior to enrollment in a clinical course. It is the responsibility of each student to upload all documentation to your clinical clearance account.

Undergraduate nursing students must satisfactorily complete all clinical clearance within 30 days prior to the first day of orientation, or failure to comply will result in the CON rescinding your seat in the program.

3. Undergraduate nursing students must satisfactorily complete required Drug Math Tests and Clinical Skills Testing (See College of Nursing Undergraduate Policy U-8 and U-9).

4. Students may be requested by a faculty member or clinical agency to provide evidence of clinical clearance in order for a student to participate in a required clinical experience.

ATTACHMENT #1
Policy on Health Examination and Immunizations

The Florida State University College of Nursing (CON) guidelines for health examination and immunizations are based on the recommendations of the Center for Disease Control and State of Florida guidelines for the adult in a health-related occupation.

Prior to your first term of enrollment, nursing students are required to submit a completed medical examination including evidence of the following immunizations.

REQUIRED IMMUNIZATIONS

**Diphtheria, Pertussis & Tetanus**
Complete primary DTaP series (3 doses) with Tdap or Td booster within 10 years.

**Measles**
Documentation of one of the following:
- a. Two (2) immunizations with live measles (Rubeola) virus vaccine administered at least 30 days apart dated after 1967, and on or after the first birthday; or
- b. Positive Rubeola titer (blood test) proving immunity; or
- c. Statement by a physician on his/her stationary which specifies the date seen and states VERBATIM the person has had an illness "characterized by a general rash lasting three (3) or more days, a fever of 101 degrees Fahrenheit or greater, a cough and conjunctivitis, and, in the physician’s opinion, is diagnosed to have had the ten-day measles (Rubeola)."

**Rubella**
Documentation of immunization with one of the following:
- a. Live Rubella virus vaccine, dated after 1967, and on or after the first birthday; or
- b. Positive Rubella titer (blood test) proving immunity.

**Mumps**
Documentation of immunization with one of the following:
- a. Live Mumps virus vaccine, on or after the first birthday; or
- b. Positive Mumps titer (blood test) proving immunity.

Students with a birth date prior to 1/1/57 are exempt from the Measles, Mumps, Rubella (MMR) requirement.

**Hepatitis B**
Documentation of one of the following:
- a. Series of three (3) intra-muscular injections: second and third doses given one (1) and six (6) months after the first injection. Students enrolling in the program must have at least one injection by the first day of classes; or
- b. Positive hepatitis B titer (blood test) proving immunity.

**Tuberculin Skin Test**
Based on the recommendations from the CDC and the Florida Department of Health, the student must have skin test using the two-step Mantoux tuberculin skin test method. This testing must be completed prior to entry into the major. This two-step method is recommended for healthcare workers who will retested periodically. This
method is used to reduce the likelihood that a boosted reaction will be misinterpreted as recent infection.

If the initial skin test is negative after reading by a trained health care worker, a second test is done 1 to 3 weeks later. Documentation of both tests must be in millimeters and provided to the CoN.

While enrolled in the program, students with a negative skin test must have an annual skin test. Documentation must be provided to the College of Nursing.

Those students who have a positive skin test must provide documentation from the health care provider. The Positive PPD Test Results – Tuberculosis Symptom Questionnaire must be completed with the results placed in the student’s records.

**Varicella**
(Chicken pox)

Documentation of one of the following (if have shots must have both vaccines):

a. Varicella titer (blood test) proving immunity (required for TMH NICU) or
b. Date of both # 1 and #2 Varicella vaccine.

**Influenza**

Flu immunization is required each year. Seasonal Influenza vaccines are available in the fall of the year. A student may obtain the immunization through the FSU Student Health Services. Additionally, the College of Nursing participates in flu clinics throughout the campus and students are able to obtain this immunization at that time. If you are unable to receive the Influenza Vaccine then documentation is required from a health care provider regarding reason for not receiving immunization, and alternate clinical placement may be required. If an alternate clinical placement is not available, the student may not be able to progress in the nursing major.

**RECOMMENDED IMMUNIZATIONS**

**Meningococcal**

“Young adults between the ages of 17-24 are at increased risk of developing a severe form of bacterial meningitis called meningococcal meningitis. The American College Health Association and the Centers for Disease Control (CDC) recommend that students consider getting the meningitis vaccine. This bacterial infection, although rare, may cause severe neurologic impairment, partial loss of limbs, or even death (10-13% MORTALITY RATE).

Freshmen living in residence halls, bar patronage, and exposure to alcohol and cigarette smoke further increase the risk of infection within this age group. The incidence in young adults is one case per 100,000. For freshmen living in residence halls, it is 3.8 or more per 100,000.

There are five different subtypes (called Serogroups) of the bacterium that causes meningococcal meningitis (Serogroups A, B, C, Y, and W-135). The current vaccine does not stimulate protective antibodies to Serogroup B, but does against the remaining four types. In the past, Serogroup B caused about 50% of the cases of meningococcal meningitis in the U.S. but more recently, it has decreased to about 27% or less, making vaccination more protective. The vaccine is estimated to protect for 10 years or longer and is safe.” (Thagard Student Health Center, May, 2007)

Documentation is required of the vaccine received with date or documented decline of the vaccine with date on the Health Exam Form.
All Health Examination and Immunization information is due by the deadline defined by each program. Additional information may be submitted to: Florida State University College of Nursing Office of Student Services Tallahassee, FL 32306-4310
