FLORIDA STATE UNIVERSITY MISSION STATEMENT

Florida State University preserves, expands, and disseminates knowledge in the sciences, technology, arts, humanities, and professions, while embracing a philosophy of learning strongly rooted in the traditions of the liberal arts. The University is dedicated to excellence in teaching, research, creative endeavors, and service. The University strives to instill the strength, skill, and character essential for lifelong learning, personal responsibility, and sustained achievement within a community that fosters free inquiry and embraces diversity.

FLORIDA STATE UNIVERSITY VISION

Florida State University will be one of the world’s premier institutions of higher education, devoted to transforming the lives of our students, shaping the future of our state and society, and offering programs of national and international distinction in a climate of inquiry, engagement, collegiality, diversity, and achievement.

COLLEGE OF NURSING MISSION STATEMENT

Florida State University, College of Nursing educates clinicians, leaders, scholars, and advanced practitioners who can enhance the quality of life for people of all cultures, economic levels, and geographic locations. The CON integrates the liberal arts and sciences with the knowledge, skills, and attitudes essential for lifelong learning, personal responsibility, and sustained achievement in the nursing profession and the communities in which our graduates reside.

CURRICULUM
STATEMENT OF BELIEFS

Given the mission of the University and the College of Nursing, the College is guided by a set of beliefs held by the faculty in relation to:

- Nursing’s phenomenon of concern as human beings within the context of health;
- Nursing as an evidence-based profession; and
- Nursing education as a lifelong process

The beliefs that guide the nursing education programs and the discipline of nursing at Florida State University are:

a. The foundation of nursing is based upon broad preparation in liberal studies, socialization into the core values of the profession, and preparation in the knowledge and skills requisite to practice at the Baccalaureate and Graduate levels

b. Nursing knowledge is built on nursing practice, theory, and research. In addition, nursing drives knowledge from other disciplines, adapting and applying this knowledge as appropriate to professional practice

c. Nurses bring a unique blend of knowledge, judgement, skills, and caring to the health care team. Professional nursing requires strong critical reasoning, clinical judgement, communication and assessment skills, and a commitment to lifelong learning (AACN Baccalaureate Essentials, 2008)

d. Nurses must process the knowledge and skills needed to provide safe, culturally competent and high-quality care in an environment of increasing diversity and globalization (AACN Baccalaureate Essentials, 2008)

e. Nursing practice is comprised of approaches gained through scientific inquiry designed to broaden the evidence base of the profession. These approaches are designed to explain and facilitate the phenomenon of human existence in the context of health

f. Baccalaureate education, the minimal requirement for entry into professional nursing practice, prepares the generalist and is the foundation for Graduate nursing education (AACN Baccalaureate Essentials, 2008)

g. The fundamental aspects of generalist nursing practice are direct care of the sick in and across all environments, health promotion and prevention of illness, and population-based health care (AACN Baccalaureate Essentials, 2008)

h. Graduate nursing education prepared nurses for role enhancement and advanced professional practice

i. Nursing must educate future professionals to deliver patient-centered care as members of an Interprofessional team, emphasizing evidence-based practice, quality improvement approaches and informatics (IOM, 2003) (AACN Baccalaureate Essentials, 2008)
The conceptual map of the graduate program consists of three major parts: the core circle, elliptical inner orbits, and the outer orbits. The graduate program is built upon core professional nursing values and life-long learning. An undergraduate baccalaureate degree in nursing is a mandatory criterion for entering the graduate program.

The center of the model depicts the lifelong learning in a culturally sensitive environment encircling Benner’s Model of Novice to Expert, depicting students’ progression through the program and beyond graduation. Additionally, the core is based on evidence-based practice representing the knowledge content required for mastering, applying, and fine-tuning the concepts and processes students master as they move through the curriculum.

The orbits on the second layer indicate the three majors or roles students may choose as a focus of their studies: family nurse practitioner, psychiatric mental health nurse practitioner, and acute care nurse practitioner which include the various healthcare providers certificate programs.

The outer orbit depicts the major expected roles students will evidence as they move from novice to expert. These roles are expected of students in all of the curriculum tracks in the graduate program.
CERTIFICATE PROGRAMS

Psychiatric/Mental Health (PMHNP) Nurse Practitioner
A total of 23 semester hours and 540 clinical hours

Students enrolled in this certificate program must maintain a cumulative grade point average of at least 3.0 in all graduate courses. No course hours with a grade below a “B” will be credited toward this certificate. All clinical practice/labs must be completed with a “Satisfactory” grade. All incoming graduate students must be a certified Nurse Practitioner and have completed the following graduate level courses prior to beginning the program: Advanced Health Assessment; Advance Pathophysiology; and Advance Pharmacology. This certificate program prepares the student to sit for Psychiatric Mental Health Nurse Practitioner certification exam. We will admit one cohort in the spring and one cohort in the fall for a total of twice a year for this certificate program.

PMHNP Program of Study

Semester 1 (Spring/Fall): (6 hours)
NGR 5056C Advanced Psychiatric Assessment and Diagnostics (3) (45 CH)
NGR 5538 Psychopharmacology for Psychiatric Nursing (3)

Semester 2 (Summer/Spring): (6 hours)
NGR 5503 Psychiatric/MH Nurse Practitioner I: Individual Psychotherapy (3)
NGR 5503L Psychiatric/MH NP I Lab: Individual Psychotherapy (3) (135 CH)

Semester 3 (Fall/Summer): (6 hours)
NGR 5508 Psychiatric/MH Nurse Practitioner II: Family & Group Psychotherapy (3)
NGR 5508L Psychiatric/MH NP II Lab: Family & Group Psychotherapy (3) (135 CH)

Semester 4 (Spring/Fall): (5 hours)
NGR 5504L Practicum – Psychiatric/Mental Health Nursing (5) (225 CH)
Adult Gerontology Acute Care (AGACNP) Nurse Practitioner

A total of 22 semester hours and 540 clinical hours

A certificate student must maintain a cumulative grade point of at least 3.0 in all graduate courses. No course hours with a grade below “B” will be credited for this certificate. All clinical practical labs must be completed with a Satisfactory. The entering graduate student must have the following graduate level courses prior to starting the program: Advanced Health Assessment, Advance Pathophysiology, and Advance Pharmacology. This certificate is a total of 22 semester hours and 540 clinical hours.

AGACNP Program of Study

Semester 1 (Fall): (6 hours)
NGR 6217C  Advanced Skills for the Acute Care Practitioner (2) (45 CH)
NGR 6210  Acute Care I (3)
NGR 6210L  Acute Care Practicum I (1) (45 CH)

Semester 2 (Spring): (7 hours)
NGR 6211  Acute Care II (3)
NGR 6211L  Acute Care Practicum II (4) (180 CH)

Semester 3 (Summer): (6 hours)
NGR 6212  Acute Care III (3)
NGR 6212L  Acute Care Practicum III (3) (135 CH)

Semester 4 (Fall): (3 hours)
NGR 6214L  Acute Care Practicum IV (3) (135 CH)

**If a student has not taken an advanced skills course prior to admission, NGR 5064C Advanced Skills for the APN (2) (45 CH) must also be taken**
Military & Veteran Mental Health (MVMH) certificate

A total of 12 semesters hours A certificate student must maintain a cumulative grade point of at least 3.0 in all graduate courses earned to meet the requirements of the certificate. Additionally, the certificate student must earn at least a grade of “B” in the three required courses. There will be a total of 12 credits earned over the course of four semesters: three required core courses and one elective. *Denotes core courses

DOCTOR OF NURSING PRACTICE (DNP) PROGRAM

DNP Program Outcomes

The Doctor of Nursing Practice (DNP) degree is designed to prepare nurses for the highest level of clinical practice in the profession of nursing. The program is designed in accordance with the American Association of Colleges of Nursing (AACN) Essentials of Doctoral Education for Advanced Practice Nursing, National Organization of Nurse Practitioner Faculty (NONPF) Core competencies, and Population Focus Nurse Practitioner Competencies (2013).

**DNP Family Nurse Practitioner BSN to DNP**

A total of 78 semester hours and 1035 clinical hours

This major is designed to prepare nurses for the highest level of clinical practice in the profession of nursing as a Family Nurse Practitioner (FNP). This major includes a total of 78 semester hours of post baccalaureate study and 1035 clinical hours. This major is designed in accordance with the AACN Essentials of Doctoral Education for Advanced Practice Nursing, the NONPF Core Competencies, and Population Focus Nurse Practitioner Competencies (2013). Upon successful completion of this major, graduates will be eligible to sit for the FNP certification exam and be awarded the DNP degree.

Adult Gerontology Acute Care Nurse Practitioner BSN to DNP
A total of 77 semester hours and 1080 clinical hours

This major is designed to prepare nurses for the highest level of clinical practice in the profession of nursing as an Adult Gerontology Acute Care Nurse Practitioner (AGACNP). This new major includes a total of 77 semester hours of post baccalaureate study and 1080 clinical hours. This major is designed in accordance with the AACN Essentials of Doctoral Education for Advanced Practice Nursing, the NONPF Core Competencies, and Population Focus Nurse Practitioner Competencies (2013). Upon successful completion of this major, graduates will be eligible to sit for the AGACNP certification exam and be awarded the DNP degree.

Psychiatric/Mental Health Nurse Practitioner DNP
A total of 42 semester hours and up to 540 clinical hours

The Doctor of Nursing Practice (DNP) degree is designed to prepare nurses for the highest level of clinical practice in the profession of nursing as a Psychiatric/Mental Health Nurse Practitioner. The program includes a total of 42 credit hours of post master’s study and varied clinical hours of DNP study depending on transfer clinical hours from previous NP program(s). This program is designed in accordance with the American Association of Colleges of Nursing (AACN) Essentials of Doctoral Education for Advanced Practice Nursing, National Organization of Nurse Practitioner Faculty (NONPF) Core Competencies, and Population Focus Nurse Practitioner Competencies (2013). Upon completion of the Psychiatric/Mental Health Nurse Practitioner program, students will be awarded the Doctor of Nursing Practice degree.

*NGR6590 The Role of Lifestyle Medicine in Improving Mental Health
*NGR6xxx Wounds of War: visible and nonvisible

---

**SCHOLARLY ENGAGEMENT**

The purpose of the Scholarly Engagement requirement is to ensure that doctoral students are active participants in the scholarly community. To meet the Scholarly Engagement requirement, doctoral students should interact with faculty and peers in ways that may include enrolling in courses; attending seminars, symposia, and conferences; engaging in collaborative study and research beyond the university campus; and utilizing the library, laboratories, and other facilities provided by the university. The goal is to prepare students to be scholars who can independently acquire, evaluate, and extend knowledge, as well as develop themselves as effective communicators and disseminators of knowledge.
Students in the graduate program are required to make a grade of “B” or better in all graduate nursing coursework. Additionally, nursing students are required to make a Satisfactory (S) in all graduate clinical courses. Any course grade below a “B” or “Unsatisfactory” cannot count toward the graduate degree. A student who fails to achieve a grade of “B” or better, or a Satisfactory in a clinical course is required to take the course again. If a student is unsuccessful in a clinical course, they must retake the course including retaking all required clinical hours for that course again. A student who fails to achieve a grade of “B” or better, or a Satisfactory in a clinical course a second time in a course cannot continue in the graduate program. Additionally, if a student receives less than a B or an Unsatisfactory in two courses the student will be dismissed from the program. If transfer credits are accepted, they must be a B or better.
**GRADUATE COURSE DESCRIPTIONS**

**Nursing Science Core Courses**

**NGR 5003**  **Health Assessment for Advanced Practice (2)**  
*Prerequisite: Admission to the DNP Program*  
This course is designed to provide the learner with a strong foundation in the health assessment skills requisite for advanced nursing practice. The focus of the course is on the diagnostic reasoning process as it relates to building a clinical database. History taking, physical examination skills, laboratory, diagnostic and radiographic modalities are included in the course content. The course has a clinical component wherein the students will utilize the diagnostic process in drawing conclusions based upon the database formed through various assessment modalities.

**NGR 5003L  Health Assessment for Advance Practice Lab (2) (90 clinical hours)**  
*Co-requisite: NGR5003 Health Assessment for APN*  
This course is designed to provide the clinical component of NGR 5003 for graduate nursing students in the Family Nurse Practitioner track. The focus of the course is on the diagnostic reasoning process as it relates to building a clinical database. History taking, physical examination skills, laboratory, diagnostic and radiographic modalities are included in the course content.

**NGR 5140  Advanced Pathophysiological Concepts in Nursing Science (3)**  
*Prerequisite: Admission to the DNP Program or Permission of the Instructor*  
This course is designed to build on basic pathophysiology principles and explore the principles of normal body functions and pathophysiological changes that occur as a result of disease, lifestyle, and homeostatic changes in the body. Altered pathophysiological health is explored at the genetic, cellular and organ system level. Epidemiology, pathophysiological processes, and related systems interaction are examined. Disease processes across the life span are explored and case studies are used to demonstrate the clinical assessment approaches for the advanced practice nursing student.

**NGR 5172  Pharmacology for Advanced Practice (3)**  
*Prerequisite: Admission to the DNP Program or Permission of the Instructor*  
This course provides a broad overview of pharmacology using a lifespan approach. Special consideration is given to professional practice and statutory issues related to prescribing. A broad overview of agents commonly used in primary care will be provided. This will follow a system specific approach, with special attention paid to issues specific to the various stages of the lifespan. Concepts of compliance and collaboration will be examined in the context of effecting positive changes for the patient. The course emphasis will be placed on facilitating pharmacologic management of patients for advanced practice nurses in independent and collaborative practice.
NGR 5887  Legal and Ethical Complexities in Healthcare (3)
*Prerequisite: Admission to the DNP Program or Permission of the Instructor*
This course focuses on legal and ethical issues confronting healthcare professionals and practitioners. The course applies ethical theories to inter-professional team resolution of these dilemmas. Emphasis will be placed on the use of decision-making models. Finally, the course will familiarize students with ethical and legal considerations, patient-provider relationships, and the concepts of moral judgment.

NGR 6185  Genetics and Emerging Disease (3)
*Prerequisite: NGR 5140 Advanced Pathophysiological Concepts in Nursing Science*
This course is designed to facilitate the advanced nursing student’s understanding of genetics and emerging diseases and their impact on professional nursing practice. Topics will include basic concepts of genetics and emerging diseases and their application to nursing practice and global health. In addition, related ethical, legal, and social issues will be examined.

**Research Core Courses**

*NGR xxxx  Theoretical Constructs and Methods in Nursing Research (4)*
*Prerequisite: Admission to the DNP Program or Permission of the Instructor*
This course is designed to develop the knowledge and skills necessary to explore the connections between theory, practice, and research from nursing and related fields. Additionally, this course examines the quantitative and qualitative methods used to generate evidence and emphasizes evaluation of evidence for translation into practice. Topics covered include development and evaluation of nursing knowledge and nursing theory, analysis and application of theories and models in nursing practice, education, administration, and research. The student will also explore instruments for research and evidence-based practice (EBP).
*denotes pending university approval

NGR 5846  Biostatistics (3)
*Prerequisite: Admission to the DNP Program or Permission of the Instructor*
This course provides basic principles and applications of statistics to problems in clinical and public health settings. Topics covered include descriptive statistics, probability, sampling, hypothesis testing, proportions, t-tests, chi-square tests, analysis of variance, correlation, linear regression and correlation coefficients, multiple regression, and nonparametric statistics. It is expected that the student will be able to apply the steps of statistical inference, perform the appropriate statistical test, and interpret the results and computer output for commonly used statistical procedures. Analytic techniques to support evidence-based practice will include NNT, Risk Ratio, Odds Ratio, and Relative Risk. Statistical software will be incorporated.

NGR 6674  Population Health and Applied Epidemiology (3)
*Prerequisite: Admission to the DNP Program or Permission of the Instructor*
This course provides a foundation in population health and applied epidemiology. The emphasis is on analysis of epidemiologic and scientific data for the assessment and evaluation of population health. Students will apply descriptive epidemiology concepts including social and
economic determinants of health, measurement of disease, distribution of disease and health disparities to the assessment of populations, development of interventions and evaluation of outcomes. Students will examine a broad array of interventions for impacting population health with emphasis on collaboration, care coordination, disease surveillance, outbreak investigation, and screening.

**NGR 6853  Translation and Synthesis of Evidence (3)**  
*Prerequisite: NGR xxx Theoretical Constructs and Methods in Nursing Research*  
This course is designed to provide the tools for locating, evaluating, refining, synthesizing, channeling, applying, and explaining appropriate research findings to improve the efficiency and effectiveness of nursing care in inter-professional settings. Quality improvement methods and grant writing will be discussed.

**NGR 6931C  DNP Project I: Proposal Development (1) (15 indirect clinical hours)**  
*Prerequisite: NGR 6853 Translation and Synthesis of Evidence*  
This course is the first of four DNP Project courses (DNP Project I – IV). During this course students will explore the components of the DNP project proposal while focusing heavily on preparing the clinical question, aims/objectives, defined methodology, use of appropriate statistical test, use of theoretical underpinning, and completion of the DNP Project proposal. The proposal will be used in the DNP Project II to complete the Institution Review Board Human Subjects Committee application.

**NGR 6935C  DNP Project II: IRB Protection of Human Participants (1) (15 indirect clinical hours)**  
*Prerequisite: NGR 6931C DNP Project I*  
This course is the second of the four DNP project courses. The course provides the student with the opportunity to finalize the DNP Project Implementation Plan and submit the IRB Protection of Human Subjects application to FSU and the clinical site, if required. The course uses a structured seminar format to facilitate dialogue with course faculty, student, and the student’s DNP Major Professor.

**NGR 6910C  DNP Project III: Implementation and Data Analysis (1) (30 indirect clinical hours)**  
*Prerequisite: NGR 6931C DNP Project I; NGR 6935C DNP Project II*  
This course is the third of four DNP Project courses. The course provides the student with the opportunity to implement and evaluate the DNP Project under the guidance of the Major Professor. This includes collecting and analyzing relevant data and beginning to synthesize the results and discussion sections of the DNP Project Report.

**NGR 6912C  DNP Project IV: Dissemination (1) (30 indirect clinical hours)**  
*Prerequisite: NGR 6931C DNP Project I; NGR 6935C DNP Project II;  
NGR 6910C DNP Project III*  
This course is the fourth of the four DNP Project courses. During this course, the student prepares the final DNP Project Report for submission and disseminates the project outcomes. A poster presentation is prepared and presented at the DNP Exposition and to the clinical agency.
Leadership/Policy Core Courses

NGR 7769  DNP Roles and Leadership within Complex Environments (3)
*Prerequisite: Admission to the DNP Program or Permission of the Instructor*
This course examines roles and responsibilities of the DNP prepared nurse that lead to effective practice, leadership and interprofessional collaboration. Students will analyze traditional and transformational leadership models and their effects on healthcare environments. Professional attributes and requisites for the next generation of advanced practice nursing leaders within the evolving healthcare system will be explored.

NGR 5871  Managing Information and Technology in Health Systems (3)
*Prerequisite: Admission to the DNP Program or Permission of the Instructor*
This course examines the critical elements and use of healthcare information systems and patient care technology as applied to healthcare delivery, quality improvement, patient safety and organizational outcomes evaluation. Health applications related to clinical, administrative, research and educational decision-making are explored. Emphasis is on exploration of issues and trends related to human technology interface, implementation science, ethics and cultural diversity.

NGR 6893  Healthcare Finance, Economics, and Entrepreneurship (3)
*Prerequisite: NGR 5887 Legal and Ethical Complexities in Healthcare*
This course will examine changes in healthcare systems based on evolving healthcare priorities and economic outcomes. Students will analyze the relationship among process, outcomes, and economic indicators. The analysis of financial models of healthcare delivery will include reimbursement, resource management, distribution of services, cost-benefit analyses, return on investments, and outcomes-based care. Financing the practice of care delivery systems will be analyzed on a continuum of individual practitioner care delivery in a variety of practice settings. Key entrepreneurial leadership principles, practices, and creative strategic planning for healthcare ventures will be explored.

NGR 6895  Health Care Policy, Politics, and Power (3)
*Prerequisite: Admission to the DNP Program or Permission of the Instructor*
This course offers the student an opportunity to analyze the impact of politics and power on healthcare policies that affect healthcare delivery systems and advanced nursing practice. Legal and ethical considerations of healthcare policies will be examined in the context of providing quality and cost-effective services. The leadership role of nurses in advanced practice in designing strategies for influencing healthcare policy development to promote optimal healthcare outcomes and quality care will be explored.

Family Nurse Practitioner Specialty Courses

NGR5064C  Advanced Skills for the APN (2) (45 clinical hours)
*Prerequisite: Admission into the FNP Program*
The advanced skills course is designed to enable students to develop skills for use in primary clinical practice. The students explore both the theoretical and practical aspects of a variety of procedures and diagnostic modalities including microscopy, suturing, EKG (basic and advanced), radiology, casting and splinting and dermatological procedures. The course is web assisted and is formatted so that didactic content is provided via web assisted methodology, and the skills are practiced during an intensive two-day session, followed by clinical practice.

NGR 6601  Advanced Management of the Family I (3)
Prerequisite: NGR 5003 Health Assessment for APN; NGR 5003L Health Assessment for Advanced Practice Lab; DNP Core Courses
Co-requisite: NGR 6601L FNP Practicum I
This course is the second course focusing on the nurse practitioner role. It is designed to provide learners with the knowledge and skills to develop basic strategies designed to promote health, diagnose, and manage basic acute and chronic health problems across the life span. The focus of the course is the development of sound diagnostic skill through an emphasis on the differential diagnostic process and institution of clinical strategies to address common acute and chronic disorders. The course will provide a foundation for the development of the student’s approach to the nurse practitioner role as they progress through the program.

NGR 6601L  FNP Practicum I (4) (180 clinical hours)
Prerequisite: NGR 5003 Health Assessment for APN; NGR 5003L Health Assessment for Advanced Practice Lab; DNP Core Courses
Co-requisite: NGR 6601 Advanced Management of the Family I
The course is designed to apply the knowledge and skills gained in Advanced Health Assessment and to develop basic strategies to promote health, diagnose, and manage simple, acute and chronic health problems across the life span. The focus of the course is the development of sound diagnostic skills utilizing the differential diagnostic process during clinical patient visits. The student also will begin to develop collaborative partnerships with the clinical preceptor and other healthcare professionals in the management of patients.

NGR 6602  Advanced Management of the Family II (3)
Prerequisite: NGR 6601 Advanced Management of the Family I; NGR 6601L FNP Practicum I; Co-requisite: NGR 6602L FNP Practicum II
This course examines and refines methods of diagnosis and management of health problems that affect the individual and family. The focus will be on the prevention of illness, promotion of wellness, and the management of complex acute and chronic health problems and their impact on communities. The role of the advanced practice nurse as a vital force in contemporary health care will be explored. In the accompanying laboratory course (FNP Practicum II), clinical experiences are expanded to encompass a wider variety of primary care settings based on the student’s needs.

NGR 6602L  FNP Practicum II (3-4) (135-180 clinical hours)
Prerequisite: NGR 6601 Advanced Management of the Family I; NGR 6601L FNP Practicum I; Co-requisite: NGR 6602 Advanced Management of the Family II
This course is designed to provide students with advanced knowledge and skills related to the clinical management of actual and potential health problems across the life span in a primary
care setting. The focus will be on promoting health, preventing illness and the management of complex acute and chronic illnesses. Clinical experiences, encompassing clients across the age span and families, occur in various primary care settings. The role dimensions of manager, collaborator and teacher will be explored within the context of the Family Nurse Practitioner role. FNP DNP students are to take 4 credit hours and 180 clinical hours; the FNP Certificate students are to take 3 credit hours and 135 clinical hours.

NGR 6619L  FNP Practicum III (5) (225 clinical hours)
Prerequisite: NGR 6601 Advanced Management of the Family I; NGR 6601L FNP Practicum I; NGR 6602 Advanced Management of the Family II; NGR 6602L FNP Practicum II
This course is designed for students to synthesize the advanced practice knowledge, skills, and abilities into the advance practice nursing leader’s role prior to the residency. Students are expected to complete their transition to the nurse practitioner role with the assistance of a physician, nurse practitioner, or physician assistant. The student in collaboration with faculty will select a practice setting that reflects the individual interests and completes the advanced practice preparation.

NGR 6304  Pediatrics for Advance Practice (3)
Prerequisite: NGR 5003 Health Assessment for APN; NGR 5003L Health Assessment for Advanced Practice Lab
The purpose of this course is to provide a comprehensive overview of pediatric practice in the context of Family Nurse Practitioner Competencies. Emphasis will be on the following areas: Pediatric review, Growth & Development, Pediatric Theorists, Role of the Nurse Practitioner, Pediatric Health Assessment and Physical Exam, and Diagnosis and Management of Common Illness in Children and Adolescents.

NGR 6348  Women’s Health Care for Family Advance Practice Nurses (3)
Prerequisite: NGR 5003 Health Assessment for APN; NGR 5003L Health Assessment for Advanced Practice Lab
This course is designed to address women’s health care across the lifespan. It should facilitate the family advanced practice nurse’s understanding of how to provide primary care, reproductive care, and problem-based care unique to women. The focus will be on clinical decision-making, progressing from the reason women seek care, through assessment, diagnosis, screening and diagnostic testing, management plans, and patient teaching.

NGR 6942L  DNP Practicum IV (1-5) (45-225 clinical hours)
Prerequisite: NGR 6601 Advanced Management of the Family I; NGR 6601L FNP Practicum I; NGR 6602 Advanced Management of the Family II; NGR 6602L FNP Practicum II
This course provides an intensive clinical residence experience that is intended to demonstrate the culmination of the students’ advanced practice role. Each student will be required to submit individual objectives at the beginning of the semester. Clinical experiences will be individually designed within the context of the focus of the student’s program. With faculty guidance, students will use scientific theory, systematic evidence appraisal, organizational and policy analysis, and models of care delivery.
NGR 6943L  DNP Practicum V (1-5) (45-225 clinical hours)
Prerequisite: NGR 6601 Advanced Management of the Family I; NGR 6601L FNP Practicum I; NGR 6602 Advanced Management of the Family II; NGR 6602L FNP Practicum II
This course provides an intensive clinical residence experience for students seeking additional clinical hours to meet certification examination requirements or to demonstrate the culmination of the students’ advanced practice role. Each student will be required to submit individual goals at the beginning of the semester. Clinical experiences will be individually designed within the context of the focus of the student’s program. An advanced practice expert will facilitate the clinical residency experience.

Psychiatric/Mental Health Certificate Courses

NGR 5056C  Advanced Psychiatric Assessment and Diagnostics (3) (45 clinical hours)
Prerequisite: Admission into the PMH Program
This course provides students with a knowledge base in mental health assessment of clients across the life span within the context of the advanced psychiatric mental health nursing role. Emphasis is on the acquisition and analysis of relevant data for the development of a comprehensive and holistic mental health assessment and subsequent diagnoses. Focus is on history taking, analysis, data categories, and specific techniques used to identify mental health problems and differential diagnoses in clients across the life span.

NGR 5538  Psychopharmacology for Psychiatric Nursing (3)
Prerequisite: Admission into the PMH Program
This course provides knowledge of psychoactive medications related to nursing care with psychiatric-mental health clients, including children, adolescents, and adults. Emphasis is on the selection and use of psychoactive medications in the treatment of clients experiencing psychiatric disorders and in the restoration of wellness. An additional focus is the impact of psychoactive medications on the client, family, and community. Content is presented in relation to the role of psychiatric-mental health nurse who functions in an advanced role in a variety of settings.

NGR 5503  Psychiatric/MH Nurse Practitioner 1: Individual Psychotherapy (3)
Prerequisite: NGR 5056C and NGR 5538
Corequisite: NGR 5503L
This course provides the PMHNP student with advanced knowledge in group psychotherapy techniques that is applicable across lifespan. This course will focus on the theoretical and conceptual models of group dynamics and utilize evidence-based practices in assessing, planning, treating, and evaluating dysfunctional patterns in groups. Additionally, this course will promote and maintain effective and therapeutic communication patterns in a variety of group settings.

NGR 5503L  Psychiatric/MH NP I Lab: Individual Psychotherapy (3) (135 clinical hours)
Prerequisite: NGR 5056C and NGR 5538
Corequisite: NGR 5503
This course provides clinical experiences in the assessment, diagnosis, treatment, and evaluation of clients across the lifespan who are experiencing acute and/or chronic psychiatric disorders. Emphasis is placed evidenced-based practice and the utilization of theoretical and conceptual
models for assessing, planning, and treating major psychiatric disorders. Moreover, emphasis is given to promoting, maintaining, and restoring wellness to individual clients of all ages. Holistic therapeutic approaches are used to enhance the functioning of diverse individuals across the lifespan.

NGR 5508 Psychiatric/MH Nurse Practitioner II: Family and Group Psychotherapy (3)
Prerequisite: NGR 5056C and NGR 5538
Corequisite: NGR 5508L
This course provides the PMHNP student with advanced knowledge in group psychotherapy techniques that is applicable across lifespan. This course will focus on the theoretical and conceptual models of group dynamics and utilize evidence-based practices in assessing, planning, treating, and evaluating dysfunctional patterns in groups. Additionally, this course will promote and maintain effective and therapeutic communication patterns in a variety of group settings.

NGR 5508L Psychiatric/MH NP II Lab: Family and Group Psychotherapy (3) (135 clinical hours)
Prerequisite: NGR 5056C and NGR 5538
Corequisite: NGR 5508
This course provides clinical experiences in the assessment, diagnosis, treatment, and evaluation of clients across the lifespan who are experiencing acute and/or chronic psychiatric disorders. Emphasis is placed evidenced-based practice and the utilization of theoretical and conceptual models for assessing, planning, and treating major psychiatric disorders. Moreover, emphasis is given to promoting, maintaining, and restoring wellness to clients of all ages. Holistic therapeutic approaches are used to enhance the functioning of diverse individuals across the lifespan.

NGR 5504L Practicum – Psychiatric/Mental Health Nursing (5) (225 clinical hours)
Prerequisite: NGR 5056C and NGR 5538
Corequisite: NGR 5508 and NGR 5508L
This course provides an opportunity to synthesize advanced knowledge and role behaviors in an advance practice role within clinical specialty tracks. Student will under the supervision of faculty with agency preceptors in an appropriate facility or institution. With faculty guidance, student will develop a practicum plan based on course objectives to include specific objectives, learning activities, and evaluation methods.

Psychiatric/Mental Health NP DNP Courses

*Core courses for the PMHNP DNP track are the same as previously outlined for the DNP FNP track except for the following courses:

NGR 5504L Psychiatric/Mental Health Nursing Practicum (2-5) (90-225 clinical hours)
This course provides an opportunity to synthesize advanced knowledge and role behaviors in an advance practice role within clinical specialty tracks. Student will select an appropriate facility or institution to complete course objectives. With faculty guidance, student will develop a
practicum plan based on course objectives to include specific objectives, learning activities, and evaluation methods.

*PMH certificate students* will take 5 SH (225 clinical hours) one time

*DNP PMH students* will take 2-5 SH depending on the semester and may be repeated 3 times for a maximum of 10 SH.

**Electives for PMH DNP and Military Veteran Mental Health Certificate**

**NGR 6511 Geriatric Mental Health**
This course examines mental health concerns of diverse groups including older adults and their families. Essential aspects of the course focus on the recognition of major psychiatric disorders affecting older adults in a variety of settings, including the aging Military Veteran populations and their families.

**NGR 6639 Foundation for Working with Military/Veteran and Their Families in Health Care Setting**
This course provides students with a foundation of military culture, ethos and the challenges faced by our active-duty military, members of the reserves and National Guard, veterans, and their families.

**NGR 6570 Social Determinants of Mental Health in the Community**
This course is designed to enhance the clinical expertise of the advanced practice psychiatric nurse practitioner. Emphasis will be placed on social determinants of mental health, integrated care for populations living with psychiatric/mental health conditions, substance use and/or medical co-morbidities across the lifespan. The use of evidence-based clinical practice guidelines and research data are utilized. Population based health disparities of complex health problems and patient-centered, personalized care will be considered.

**NGR 6590 The Role Lifestyle Medicine in Improving Mental Health**
This course will examine the evidence-based lifestyle medicine strategies to improve mental health disorders, including non-pharmacologic approaches such as exercise, vitamins, nutrients and botanicals as well as mind-body approaches. This course will also explore some of the latest research that is shedding light on the vital link between the health of our gut and the health of our central nervous system as it relates to stress related psychiatric disorders.

**Adult Gerontology Acute Care NP Specialty Courses**

**NGR 6217C  Acute Care Skills (2) (45 clinical hours)**
*Prerequisite: NGR 5003 Health Assessment for Advanced Practice; NGR 5003L Health Assessment for Advanced Practice Lab*
This course is designed to enable learners to develop skills for use in acute care clinical practice settings. The learners explore both the theoretical and practical aspects of a variety of procedures and diagnostic modalities including comprehensive history taking, advanced airway management, arterial line and central venous catheter placements, chest tube placement, thoracentesis, paracentesis, lumbar puncture, and cricothyroidotomy procedures. This course
includes a two-day skills workshop followed by clinical practice at an acute care based clinical site for a total of 45 clinical hours.

**NGR 6210   Acute Care I (3)**
*Prerequisite: NGR 5003 Health Assessment for Advanced Practice; NGR 5003L Health Assessment for Advanced Practice Lab; NGR 5172 Pharmacology for Advance Practice; NGR 5140 Advance Pathophysiology Concepts in Nursing Science*
*Co-requisite: NGR 6210L Acute Care Practicum I*

The purpose of this first didactic course is to prepare the Adult-Gerontological Acute Care NP student to assess, diagnose, and manage selected health care needs of adults and children over 12 years of age. Emphasis is placed on synthesis and application of nursing and related theories and scientific knowledge to the development of differential/nursing diagnoses as a basis for health promotion and management.

**NGR 6210L   Acute Care Practicum I (1) (45 clinical hours)**
*Prerequisite: NGR 5003 Health Assessment for Advanced Practice; NGR 5003L Health Assessment for Advanced Practice Lab; NGR 5172 Pharmacology for Advance Practice; NGR 5140 Advance Pathophysiology Concepts in Nursing Science*
*Co-requisite: NGR 6210 Acute Care I*

The purpose of this first practicum course is to provide opportunities for Adult-Gerontological Acute Care NP students to apply concepts from NGR 6xxx in selected clinical settings. Emphasis is on critical thinking, diagnostic reasoning, differential diagnosis, communication, and collaboration in a culturally diverse system. The focus is refinement of cognitive and clinical skills needed to provide competent patient-centered care to young adults, adults, and older adults across the wellness-illness continuum with acute, critical and chronic illness, disability, and/or injury in the acute care, emergency, urgent, and ambulatory care settings.

**NGR 6211   Acute Care II (3)**
*Prerequisite: NGR 6210 Acute Care I; NGR 6210L Acute Care Practicum I*
*Co-requisite: NGR 6211L Acute Care Practicum II*

The purpose of this didactic course is to prepare the Adult-Gerontological Acute Care NP student to assess, diagnose, and manage patients, focusing on the illness and overall health of the gastrointestinal, renal, endocrine, and internal medicine patient population. This course examines the epidemiology, assessment, diagnosis, management and two evaluations of acutely or critically ill adults across the adult-older adult age spectrum. An evidence-based, interprofessional team approach to the nursing and medical management of patients is emphasized.

**NGR 6211L   Acute Care Practicum II (4) (180 clinical hours)**
*Prerequisite: NGR 6210 Acute Care I; NGR 6210L Acute Care Practicum I*
*Co-requisite: NGR 6211 Acute Care II*

The purpose of this practicum course is to provide opportunities for Adult-Gerontological Acute Care NP students to advance their clinical competence in the care of patients in acute care settings by building on knowledge and skills gained in Acute Care I. Through clinical practice, students build confidence as they continue the transition from student to advanced practice nurse. Clinical experiences in acute care settings provide students with the continued opportunity to
develop, implement, and evaluate management plans for adults along the age spectrum with complex acute, critical, and chronic illness. The application of knowledge in the management of patients and the collaboration between the advanced practice nurse and the patient, family, and interprofessional healthcare team are emphasized.

NGR 6212  Acute Care III (3)
Prerequisite: NGR 6210 Acute Care I; NGR 6210L Acute Care Practicum I; NGR 6211 Acute Care II; NGR 6211L Acute Care Practicum II
Co-requisite: NGR 6212L Acute Care Practicum III
The purpose of this online didactic course is to provide a forum that provides evaluation of issues and trends encountered in advanced adult-gerontological acute care nursing. Emphasis is on the critical analysis and management of issues by the adult gerontological acute care nurse practitioner using an evidence-based, interprofessional team approach to the nursing and medical management of patients ranging from young adults to the elderly patient population.

NGR 6212L  Acute Care Practicum III (3) (135 clinical hours)
Prerequisite: NGR 6210 Acute Care I; NGR 6210L Acute Care Practicum I; NGR 6211 Acute Care II; NGR 6211L Acute Care Practicum II
Co-requisite: NGR 6212 Acute Care III
The purpose of this practicum course is to provide opportunities for Adult-Gerontological Acute Care NP students to continue their training sequentially advancing their clinical competence in the care of patients in acute care settings. The focused clinical experiences in this course provide students with sustained opportunities to develop, implement, and evaluate management plans for adults along the age spectrum with complex acute, critical, and chronic illness. The focus is on application of new and existing knowledge in the management of patients and the collaboration between the advanced practice nurses and the patient, family, and interprofessional healthcare teams.

NGR 6213L  Acute Care Practicum IV (5) (225 clinical hours)
Prerequisite: NGR 6210 Acute Care I; NGR 6210L Acute Care Practicum I; NGR 6211 Acute Care II; NGR 6211L Acute Care Practicum II; NGR 6212 Acute Care III; NGR 6212L Acute Care Practicum III
The purpose of this course is to provide a continued and ongoing opportunity for the Adult-Gerontological Acute Care NP student to practice within an advanced nursing framework. The focus is on the role of the advanced practice nurse in the health care management of acutely ill adults. Emphasis is on collaboration with other health care providers in a culturally diverse environment.

NGR 6214L  Acute Care Practicum V (5) (225 clinical hours)
Prerequisite: NGR 6210 Acute Care I; NGR 6210L Acute Care Practicum I; NGR 6211 Acute Care II; NGR 6211L Acute Care Practicum II; NGR 6212 Acute Care III; NGR 6212L Acute Care Practicum III; NGR 6213L Acute Care Practicum IV
The purpose of this culminating practicum course is to provide a preceptor and faculty facilitated experience in the Adult-Gerontological Acute Care NP role. The focus is on the application and synthesis of all knowledge and skills acquired in all previous courses for young adults, adults,
and older adults across the wellness-illness continuum with acute, critical and chronic illness in the acute care setting.

**Military & Veteran Mental Health Certificate Courses**

**NGR 6639 Foundation for Working with Military/Veteran and their Families in HC setting**
This course provides students with a foundation of military culture, ethos and the challenges faced by our active-duty military, members of the reserves and National Guard, veterans, and their families.

**NGR xxxx Women in War: Understanding the Health of Military and Veteran Women**
This course is designed to provide the MVMH certificate student with the knowledge and background which will result in the student’s development of a keen awareness of the health status of women who are currently serving, and have served, in the uniformed services. This course will identify and explore these issues in-depth with an emphasis on strategies to recognize and improve the physical-mental health and the overall well-being of this population.

**NGR xxxx Wounds of War: Visible and nonvisible wounds**
The purpose of this course is to understand the basic truths about military stress, traumas, and posttraumatic stress disorder and the post-deployment health related issue both visible and invisible wounds. The underpinning of our current conceptualizations of various types of stressful and traumatic military experiences. Look at variables that influence the risk of developing a military stress reaction. Explore different avenues to address visible and invisible wounds.

**Electives**

**NGR 6570 Management of Social Determinants of Mental Health in the Community**
This course is designed to enhance the clinical expertise of the advanced practice psychiatric nurse practitioner. Emphasis will be placed on social determinants of mental health, integrated care for populations living with psychiatric/mental health conditions, substance use and/or medical co-morbidities across the lifespan. The use of evidence-based clinical practice guidelines and research data are utilized. Population based health disparities of complex health problems and patient-centered, personalized care will be considered.

**NGR 6511 Geriatric Mental Health**
This course examines mental health concerns of diverse groups including older adults and their families. Essential aspects of the course focus on the recognition of major psychiatric disorders affecting older adults in a variety of settings, including the aging Military Veteran populations and their families.

**NGR 6590 The Role Lifestyle Medicine in Improving Mental Health**
This course will examine the evidence-based lifestyle medicine strategies to improve mental health disorders, including non-pharmacologic approaches such as exercise, vitamins, nutrients and botanicals as well as mind-body approaches. This course will also explore some of the latest
research that is shedding light on the vital link between the health of our gut and the health of our central nervous system as it relates to stress related psychiatric disorders.

**Total Clinical Hours for DNP/FNP Students**

A total of 1035 clinical hours are required for this program (CCNE accreditation body requires a minimum of 1000 clinical hours for a DNP). Of these clinical hours, a minimum of 125 pediatric and a minimum of 125 women’s hours are required. **You also need a minimum of 225 clinical hours that reflect being in a family practice setting.** The distribution of clinical hours for the program is as follows:

<table>
<thead>
<tr>

Total Clinical Hours for DNP/PMHNPs Students

A total of 540 clinical hours are required for this major with a minimum of 500 clinical hours from a previous master’s degree. If an individual has over 1000 clinical hours coming into this DNP program, he/she has the option to take a 5000-6000 level elective course at FSU. Three elective courses are offered through the College of Nursing that could fulfill this option. The distribution of clinical hours are as follows:

<table>
<thead>
<tr>

Objective Structure Clinical Evaluation (OSCE) Benchmark Testing

The OSCE testing is conducted in a simulation environment in which the student will be given a scenario and he/she will be required to assess, diagnosis, and treat the presenting problem(s). Students will be required to participate in one formative Health Assessment OSCE in Semester 4 during the Advanced Skills Workshop, and two benchmark OSCEs, one during finals week in Semester 5 and one at the beginning of Semester 8. The formative OSCE will be tied into the Advanced Skill Course. The 5th Semester Benchmark OSCE will be tied to the NGR 6601 didactic course and the 8th Semester Benchmark OSCE will be tied to NGR 6942L. Students must pass these Benchmark OSCEs in order to progress in the program. In the event of unforeseen circumstances due to events such as the COVID-19 pandemic, hurricane, or other event, this schedule may be revised as needed. Students will be informed in advance if this occurs.
DNP PROJECT
INFORMATION
**DNP PROJECT INTRODUCTION**

Doctor of Nursing Practice programs require an evidence based major synthesis project that results in a quality improvement change and has a substantial effect on healthcare outcomes (source: American Association of Colleges of Nursing and National Organization of Nurse Practitioner Faculty). The project is completed as a part of the DNP Project courses but begins with the very first DNP courses. **Refer to the DNP Project Guidelines 2021 for specific details on getting started to completion of your project.**

As an advanced practice nurse with a Doctor of Nursing Practice degree, graduates will be able to:

1. Develop, implement, and evaluate complex practice approaches based on theoretical, ethical, and scientific knowledge.
2. Ensure accountability for quality care and patient safety for diverse populations.
3. Demonstrate analytical methodologies for the evaluation of clinical practice, health outcomes, and the application of scientific evidence.
4. Utilize technological information systems to evaluation outcomes of care, health care delivery, and quality improvement.
5. Develop, evaluate and provide leadership for health care policy which shapes health care financing, regulation, and delivery.
6. Work collaboratively with interprofessional teams to meet complex health care needs of diverse individuals and populations.
7. Analyze epidemiological, biostatistical, environment, and organizational data for the development, implementation, and evaluation of programs of clinical prevention and population health.
8. Demonstrate advanced levels of clinical judgment, system thinking and accountability in designing, delivering, and evaluating evidence-based care to improve patient outcomes.

**TYPES OF DNP PROJECTS**

All projects should involve assessment, planning, intervention, and evaluation components. Types of project may include (1) the design and testing of a critical pathway, (2) the design and testing of an innovative intervention in patient care, (3) the development, testing or evaluation of a program, (4) an evidence-based policy project, (5) a system change project and (6) integrated review with presentation of Toolkit. Projects must be consistent with the AACN Essentials for “Clinical Scholarship and Analytical Methods for Evidence-Based Practice.”

**GETTING STARTED ON THE PROJECT**

It is highly recommended that the student identifies a population based in an area of interest during their first year of study (NGR 7769 DNP Roles and Leadership and Theoretical Construct & Methods in Nursing Research course). In the NGR 6853 Translations & Synthesis of Evidence class, which is taken the Fall of the 2nd year, it is expected that the review of literature is completed, development of the purpose is refined, a model/conceptual framework is developed, and methodology is initiated which includes variable selection, levels of measurement identified, and statistical analysis selected.
The next step will be accomplished with completing the four (4) DNP Project courses are as follows:

- **NGR 6931C DNP Project I – Proposal Development**, the student writes the proposal using the format below and prepares to submit to IRB. This course is faculty directed with assistance by the student’s major professor. There are 15 indirect clinical hours required for this course which are gained by any work on the project such as preparation of project proposal, IRB preparation, literature review, etc. The clinical hours are to be log into the google docs under the tab for NGR 6931 and reflect any work on the DNP project.

- **NGR 6935C DNP Project II – IRB Protection of Human Participants**, the student submits the proposal to IRB. This course is faculty directed with the assistance by the student’s major professor. There are 15 indirect clinical hours required for this course which are gained as indicated above. Students may not proceed with any type of recruitment, data collection, or analysis until they receive written approval from the University IRB and non-FSU facility approval, if applicable. The proposal is in future tense, as it has not yet happened, and should be used to complete the IRB proposal.

- **NGR 6910C DNP Project III – Implementation and Data Analysis**, the student initiates the project with data collection and data analysis. This course is Major Professor directed and there are 30 indirect clinical hours connected to this course. The clinical hours are to be log into the google docs and reflect any work on the DNP project to include meeting with the major professor.

- **NGR 6912C DNP Project IV – Dissemination**, which includes writing the data results, findings, limitations, and implications for nursing in preparation for dissemination. This course is Major Professor directed and there are 30 indirect clinical hours connected to this course. The clinical hours are to be log into the google docs and reflect any work on the DNP project to include meeting with the major professor. An oral or poster presentation of findings, conclusions and recommendations are approved by major professor and presented at the DNP Expositions in April/May of the final semester of the program. Other areas of dissemination in addition to the require DNP Exposition can include presenting findings to shareholders, presentation/poster at a conference, and/or producing a manuscript.

Note the DNP project is called different things as it progresses through the process:

1) The initial idea starts with a literature review and is called a clinical question. The clinical question is developed based on the literature review (Theoretical Constructs & Methods of Research and Translations & Synthesis of Evidence).

2) Once the literature review is completed, the DNP Project becomes a Proposal as is developed and used to submit to the IRB (DNP Project I and II).

3) The proposal is a working document that is used throughout the implementation and data collection phase (DNP Project I-III).

4) When the data collection has been completed and the results have been analyzed, the proposal becomes a DNP Project (DNP Project IV).
ACADEMIC POLICIES
FSU GRADUATE SCHOOL POLICIES

Students are encouraged to access University policies related to graduate students at: http://registrar.fsu.edu/bulletin/graduate/.

Recency of Work

The work for graduate nursing degrees must be completed within seven (7) years from the time the student first registers for graduate credit. Any graduate work transferred from another institution must have commenced not more than seven (7) years prior to completion of the degree for the credits to be applicable to the graduate nursing degree.

Registration for Final Term

For doctoral student and master’s students in a thesis-type program, registration shall be required in the final term in which a degree requiring a thesis, dissertation, or treatise is granted. If a student does not make the manuscript final submission deadline for a given term but completes all degree requirements before the first day of the next term, it is possible to waive the registration requirement. To be eligible for this registration exemption, all degree requirements, including manuscript clearance, must be completed prior to the first day of the next term. If the student has not been enrolled for the previous two terms, readmission is required before registration.

Graduation

During the first two weeks of the term in which a student expects to receive a degree, application for graduation must be made with the Office of the Registrar, Graduation Section, (850.644.5850). An online application for graduation is available at https://registrar.fsu.edu/graduation/.

CON STUDENT POLICIES

Complete College of Nursing Policies are located at: http://nursing.fsu.edu/programs/student-policies.

Academic Requirements

The Graduate Program seeks to maintain its academic integrity and that of its students in accordance with University graduate policies. Students in the College of Nursing graduate program are required to have a “B” (3.0) or better in all graduate nursing coursework. Any course grade below a “B” (3.0) cannot count toward the graduate degree. A student who fails to achieve a grade of “B” or better in a course is required to take the course again. A student who fails to achieve a grade of “B” or better a second time in a course cannot continue in the graduate program (CON Student policy G-1).
Students in the graduate program are required to maintain a 3.0 grade point average in all nursing course work each semester. Failure to do so will result in the student being placed on academic probation. During the semester in which the student is on academic probation she/he is expected to improve the Nursing GPA to a 3.0 or greater. The inability to meet this expectation will require that the student be dismissed from the program.

**Procedures for Dismissing a Graduate Student**

**College of Nursing’s Procedure:**
Dismissal of students from nursing major for reasons other than poor grades (CON policy S-14) is as follows:

A student may be dismissed from the nursing major for reasons that may include a pattern of unsafe or unethical conduct and/or a particularly serious incident of unethical or unsafe conduct in a clinical or non-clinical setting. Except for emergencies, the student is told of specific deficiencies and given written guidance and opportunity to remediate the situation prior to the dismissal.

When a faculty member, in consultation with the Assistant Dean for Undergraduate Programs or Assistant Dean for Graduate Programs, determines that a student may need to be removed from the nursing major because of a pattern of unsafe or unethical conduct and/or a particularly serious incident of unethical or unsafe conduct in a clinical setting, the following procedures apply:

A. The faculty member reviews recorded documentation of relevant incident(s), including any guidance or remediation that has been offered.

B. The faculty member discusses with the Assistant Dean for Undergraduate Programs or Assistant Dean for Graduate Programs the observed behaviors, the problems identified, the guidance/teaching strategies employed, including remediation and outcome, and the rationale for a recommendation to remove the student from all clinical settings.

C. The Assistant Dean for Undergraduate Programs or Assistant Dean for Undergraduate Programs examines the situation and makes a determination of whether or not the faculty member’s rationale for a recommendation to remove the student from the clinical setting is soundly based and documented.

D. The Assistant Dean for Undergraduate Programs or Assistant Dean for Graduate Programs and faculty meet with the student and informs him/her of the decision, rationale, and suggestions for assistance. The student receives a copy of the Removal from the Nursing Major for Reason Other than Poor Grades Form and is requested to sign the original.

E. The Associate Dean for Academic Affairs notifies the student in writing of the College of Nursing’s intent to dismiss the student from the program. The notification will include what acts of commission or omission by the student warranted the dismissal, what laws,
rules, or policies these acts have violated, and how the student was previously informed of these laws, rules, or policies.

F. The student has the right to challenge this academic determination under the grade appeal process and academic grievance procedures set forth in College of Nursing Student and the Florida State University Bulletins.

Florida State University’s Procedure:
The University reserves the right to terminate progress in an academic program and dismiss a student whose conduct is deemed improper or prejudicial to the interest of the University community or whose academic performance is substandard, regardless of GPA. Dismissed students will not be permitted to register for graduate study, including registering as a non-degree student.

Program terminations (dismissal for a reason other than GPA) are processed at the academic program/departmental level and may occur for a number of different reasons, including but not limited to:

- Inability to conduct research in a fashion appropriate with the accepted norms of a discipline,
- Inability to function within a team environment to the degree that it negatively affects the learning, practice and/or research of fellow graduate students,
- Demonstration of behavior that is not acceptable with the general community in which the student would be practicing should he or she graduate (typically clinical or school settings),
- Failure meeting one or more major milestone requirements,
- Inability to pass the diagnostic/preliminary examination/comprehensive examination,
- Failure to complete the doctoral degree/make progress towards the dissertation, or
- Extensive petitions for candidacy extension.

Graduate program handbooks should provide information about failure to meet specific milestone or behavioral requirements and the appeals process. As a minimum, the following elements must be addressed.

**Step 1:** A graduate student is identified by his/her academic program/department as not making sufficient progress towards the degree, failing to complete the degree within the specified time-period, displaying substandard academic performance, regardless of GPA, or exhibiting unacceptable behavior(s) that are relevant to professional standards.

**Step 2:** The graduate student meets with his/her major professor and/or program director to develop a remediation plan improvement.

- The department should provide a written remediation plan or written academic “warning” to the student containing specific information about improvement(s) needed to avoid dismissal.
- The remediation plan/academic warning should be developed by the department/program for the individual student and documented accordingly. (For
doctoral students, the annual evaluation is one opportunity to document unsatisfactory progress.) NOTE: programs should establish a reasonable timeline for the graduate student to respond to the remediation plan/warning. The length of time for remediation is dependent on the situation and is up to the program to decide.

- The academic dean, or appropriate designee, must also be notified of the situation, the deficiencies, and the remediation steps presented to the student.

**Step 3:** If the graduate student fails to resolve/remediate the specified and documented deficiency within a reasonable timeframe, the department may initiate a program termination. If the program chooses to terminate the academic progress of the student, the following steps must be completed prior to notifying the student.

- The academic unit must consult with the academic dean (or designated individual) regarding their plan to terminate. The consultation should include the unit’s handbook language, the remediation steps taken, the student’s efforts to date to resolve or address the deficiencies, and the grounds for the program termination.
- At the time of dismissal, the department chair may petition the academic dean for consideration of special circumstances that they believe justify an alternative resolution.
- The academic dean’s office should inform the Registrar’s Office and the Graduate School of its intent to move forward with program termination. In conjunction, the three offices will tailor a letter specific to the circumstances of the student. The dismissal letter must be sent to the student, but also sent to several offices for processing (see below).
- At this point, programs may offer the student the opportunity to change their degree program level within the same major/plan (i.e., PhD to EdS, PhD to MS, etc.) or change his/her academic plan to another degree program, but this is at the unit’s discretion.

**Step 4:** A written letter must be sent to the graduate student being dismissed. The dismissal letter should be sent to the student and copied to the dean’s office, the Registrar’s Office (Kim Barber), the Office of Faculty Development and Advancement (Jennifer Buchannan), and the Graduate School (James Beck). The letter should specify the following information:

- The process followed to notify the student of their deficiencies and allow them an opportunity to rectify those deficiencies.
- The termination reasons,
- Benchmarks missed,
- The fact that dismissal from the program constitutes dismissal from the University,
- And an academic hold will be placed on registration to prevent future registration,
- Outlining alternatives a student could request, e.g., graduating with a master’s instead of Ph.D. (assuming coursework and degree requirements are met),
- Timeline to complete specific coursework, if any. For example, the letter needs to clearly articulate to the student that the courses in which they are currently
reenrolled need to be completed by the dismissal date in order to earn credit for them.

- Notification of the right to appeal and information about how to do so, and
- A deadline for any appeal submittal. *See “General Academic Appeals Process” for more information.

**Reinstatement**

In order to be reinstated into the College of Nursing’s Graduate Program, after having been dismissed for academic reasons, the student is required to do the following:

1. Submit a written request for consideration of reinstatement to the Assistant Dean for Graduate Programs.
2. As part of the reinstatement process the student will be expected to meet with the College of Nursing Admissions Committee to provide justification for a reinstatement decision.
3. Upon reinstatement the student will be expected to successfully complete a prescribed plan of study in her/his first semester achieving a semester GPA of 3.0 or greater.

**Directed Individual Study (DIS)**

The purpose of a DIS is to permit a student to concentrate on an individually selected topic of interest in nursing. The student initiates a request to a specific faculty member who agrees to guide the study. Faculty members do not initiate or offer DIS. No faculty member will be expected to sponsor more than five (5) DISs (either individual or group total) during any one term. Four (4) credit hours will be the maximum number of credit hours allocated to any DIS. All DISs will be directly related to nursing. Extracurricular or volunteer activities will not be considered appropriate for a DIS. The total number of DIS hours completed cannot be more than six (6). (CON Policy S-7)

**Procedure**

1. The student identifies a faculty member willing to sponsor the project.
2. The student obtains a copy of the CON Proposal for DIS form from the Assistant Dean for Graduate Programs. This form is completed by the faculty sponsor to include a title and a description of the learning objectives and activities. Methods of assessment and grading policy will be determined by the faculty sponsor in collaboration with the student.
3. The DIS form is approved by the Dean and then the faculty responsible for the DIS will give the completed form to Jackie Sessions who will secure a DIS course number and upload it into the system. Once this is complete the Graduate Advisor will register the student for the course.
Transfer Credit

Transfer of courses not counted toward a previous degree from another regionally accredited graduate school is limited to six semester hours. A maximum of 12 credit hours as a non-degree seeking student at Florida State University may apply toward a graduate degree in the College of Nursing. See Policy G-4 Transfer Graduate Credits.

Upon transcript evaluation, applicants to the Doctor of Nursing Practice (DNP) program who already have a Master of Science in Nursing (MSN) degree from a program accredited by CCNE or NLN may be approved for maximum of 48% of previous credits and 675 clinical hours of transfer credit toward a DNP degree. A minimum of 51% credit hours and 340 clinical hours must be completed at Florida State University College of Nursing.

Procedure

1. An applicant to the graduate nursing program must petition the Assistant Dean for Graduate Programs for acceptance of transfer credits and/or clinical hours and provide official transcripts, course descriptions, and course syllabi for review by the graduate nursing program.
2. Assistant Dean for Graduate Programs will review the transcript, course descriptions, and course syllabi to determine equivalency of previous course work with current graduate nursing courses. A DNP Transfer Credit Approval Form will be completed for the DNP applicant.
3. The request for transfer credit with course descriptions and syllabi, if requested, are provided to the College of Nursing Curriculum Committee. For DNP applicants, a copy of the DNP Transfer Credit Approval Form is provided to the College of Nursing Curriculum Committee.
4. Following the approval of transfer credit hours by the College of Nursing Curriculum Committee, applicants are notified in writing of the number of transfer credits approved. A copy of the DNP Transfer Credit Approval Form is provided to DNP applicants indicating the number of approved transfer credit hours and clinical hours accepted by the College of Nursing.
5. Students must then meet with the Graduate Program Academic Advisor to redesign the Program of Study.

Professional Critical Behavior Policy

The College of Nursing strictly adheres to the Florida State University Academic Honor Code as stated in the FSU General Bulletin. In addition, the following apply within the College of Nursing: the CON Academic Honesty Policy, the CON Plagiarism Policy, the Substance Abuse Policy, and the Professional Critical Behaviors Policy.

Since each nursing student represents the College of Nursing, the University and the nursing profession, the faculty believes the following are behaviors deemed to be critical for all nursing students in each learning environment throughout the program of study:
1. Abide by the FSU Academic Honor Code and the Student Conduct Code, the College of Nursing Academic Honesty Policy, Plagiarism Policy, and Professional Critical Behaviors Policy.

2. Exhibit professional nursing behaviors including, but not limited to, the following:
   - Dress appropriately at all times when representing the College of Nursing by adhering to the dress code for courses and clinical assignments.
   - Communicate using appropriate language and terms and demonstrate respect for others including addressing them by proper name and title.
   - Demonstrate ethical behavior including maintaining confidentiality.
   - Resolve conflicts appropriately and follow appropriate lines of communication/chain of command.
   - Deliver safe, effective nursing care including using appropriate judgment when making decisions; properly using and caring for equipment; and using correct techniques and cautions when delivering care.
   - Adhere to the policies and protocols of the College of Nursing, affiliating agencies, the Florida Nurse Practice Act, and the legal mandates of society.

Note: An unsatisfactory in one or more of #1 and #2 will result in disciplinary action. This can include, but is not limited to the following:
   a. Failing the course regardless of grades in other course requirements; and/or
   b. Expulsion from the nursing program.

Individual courses or terms may have course-specific or term-specific behaviors with subsequent consequences. The nursing student is bound by the consequences of the course/term requirements as appropriate.

**Academic Honor Policy and Plagiarism**

The legal foundation for the coordinated efforts of faculty and students to uphold academic integrity and combat academic dishonesty is provided in the Academic Honor System (FAC 6C2-3.005), which can be found in the Florida State University Student Handbook. The specific authority for FAC 6C-3.005, "Academic Honor System," is provided for in 240.227(1), 240.202(1), and 240.261(2) FS; and Florida Board of Education rule 6C-6.0105 "Student Discipline."

The Academic Honor Policy can be found at the following site: [https://dsst.fsu.edu/srr/policies/academic-honor-policy](https://dsst.fsu.edu/srr/policies/academic-honor-policy).

The Florida State University Student Handbook can be found at the following site: [http://deanofstudents.fsu.edu](http://deanofstudents.fsu.edu) under Resources.

Students are expected to uphold the Academic Honor Policy published in The Florida State University Bulletin and the Student Handbook. The Academic Honor System of the Florida State University is based on the premise that each student has the responsibility (1) to uphold the highest standard of academic integrity in the student’s own work, (2) to refuse to tolerate
violations of academic integrity in the University community and (3) to foster a high sense of integrity and social responsibility on the part of the University Community.

Examples of Academic Honor Violations include but are not limited to the following:

1. **PLAGIARISM.** Intentionally presenting the work of another as one's own (i.e., without proper acknowledgement of the source). Typical examples include:
   - Using another's work from print, web, or other sources without acknowledging the source; quoting from a source without citation; using facts, figures, graphs, charts, or information without acknowledgement of the source.

2. **CHEATING.** Improper application of any information or material that is used in evaluating academic work. Typical examples include:
   - Copying from another student's paper or receiving unauthorized assistance during a quiz, test or examination; using books, notes or other devices (e.g., calculators, cell phones, or computers) when these are not authorized; procuring without authorization a copy of or information about an examination before the scheduled exercise; unauthorized collaboration on exams.

3. **UNAUTHORIZED GROUP WORK.** Unauthorized collaborating with others. Typical examples include:
   - Working with another person or persons on any activity that is intended to be individual work, where such collaboration has not been specifically authorized by the instructor.

4. **FABRICATION, FALSIFICATION, AND MISREPRESENTATION.** Intentional and unauthorized altering or inventing of any information or citation that is used in assessing academic work. Typical examples include:
   - Inventing or counterfeiting data or information; falsely citing the source of information; altering the record of or reporting false information about practicum or clinical experiences; altering grade reports or other academic records; submitting a false excuse for absence or tardiness in a scheduled academic exercise; lying to an instructor to increase a grade.

5. **MULTIPLE SUBMISSIONS.** Submitting the same academic work (including oral presentations) for credit more than once without instructor permission. It is each instructor's responsibility to make expectations regarding incorporation of existing academic work into new assignments clear to the student in writing by the time assignments are given. Typical examples include:
   - Submitting the same paper for credit in two courses without instructor permission; making minor revisions in a credited paper or report (including oral presentations) and submitting it again as if it were new work.

6. **ABUSE OF ACADEMIC MATERIALS.** Intentionally damaging, destroying, stealing, or making inaccessible library or other academic resource material. Typical examples include:
   - Stealing or destroying library or reference materials needed for common academic purposes; hiding resource materials so others may not use them; destroying computer programs or files needed in academic work; stealing, altering, or intentionally damaging another student's notes or laboratory experiments. (This refers only to abuse as related to an academic issue.)
7. **COMPPLICITY IN ACADEMIC DISHONESTY.** Intentionally helping another to commit an act of academic dishonesty. Typical examples include:
   - Knowingly allowing another to copy from one's paper during an examination or test; distributing test questions or substantive information about the material to be tested before a scheduled exercise; deliberately furnishing false information.
8. **ATTEMPTING** to commit any offense as outlined above.

**Student Responsibility**

- Each student shall be responsible for abiding by the Academic Honor Policy at all times. If required by an instructor, at the conclusion of each examination or submission of an assignment, each student shall sign a pledge that the student has neither given nor received aid from any unauthorized source during the examination or in preparing the assignment.

- Any student who knows of violations to the Academic Policy is expected to report the violation to the instructor and/or the University judicial officer.

- If a student observes cheating during an examination, the student should consult with the instructor of the course as soon as reasonable so that the cheating may be stopped. If a student otherwise observes or learns of another student’s violation of the Academic Honor Policy, the student shall either: a) ask the student to report the violation to the instructor of the course and/or the University judicial officer or b) report the violation to the instructor of the course and the University judicial officer. In the event that a student asks another student to report himself/herself and such student does not do so, then the student shall report, as soon as practicable, the violation to the instructor of the course and/or the University judicial officer. The student should provide the name of such student or students involved, if known, and furnish such evidence as is available to support the charge.

**Academic Penalties**

When an instructor believes that a student has violated the Academic Honor Policy in one of the instructor’s classes, the instructor must first contact the Office of the Dean of Faculties to report the alleged violation and to determine if the student has a history of prior violations before deciding whether to proceed with a Step 1 agreement. The instructor must also inform the department chair or dean. If the intent to pursue a Step 1 Agreement is determined, the instructor shall discuss the evidence of academic dishonesty with the student and explore the possibility of a Step 1 agreement in accordance with the procedures for resolving cases as outlined in https://fda.fsu.edu/academic-resources/academic-integrity-and-grievances/academic-honor-policy.

**Plagiarism Prevention**

Plagiarism is grounds for suspension from the University as well as for course failure and will not be tolerated. Any instance of plagiarism must be reported to the Dean of the College of
Nursing. Plagiarism is included among the violations defined in the Academic Honor Code, section b), paragraph 2, as follows: "Regarding academic assignments, violations of the Academic Honor Code shall include representing”.

FSU has a site-wide license to TurnItIn for detecting plagiarism. This service scans materials to see if content has been copied from papers available on the Internet or other papers in the database. All required papers may be subject to submission for textual similarity review to TurnItIn or the detection of plagiarism and may be entered into the database.

While there are a variety of reasons for plagiarism, every instance of plagiarism may not be deliberate. Most cases of plagiarism can be avoided by citing sources, acknowledging that the material and/or the essential idea has been borrowed, and providing the information necessary to locate that source.

The resources below include checklists, guidelines, examples, and explanations on how to research and write papers without risk of plagiarism. These resources are concise in content and presentation and should be valuable to the beginner and the experienced student alike.

- Citation Style for Research Papers (APA, Purdue Owl APA); http://owl.english.purdue.edu
- IPL Teen Space: A+ Research and Writing (useful for teens and college students, a list of steps, processes, and tips) http://www.ipl.org/div/aplus/stepfirst.htm
- Information Literacy Tutorials (multimedia, interactive tutorial—requires Authorware plugin to view) http://libraries.dal.ca/
- Writing Research Papers: A Step-by-Step Procedure (a 1-page checklist) http://owl.english.purdue.edu
FSU CON ACADEMIC HONOR POLICY STATEMENT

The College of Nursing expects students to uphold the Florida State University Academic Honor Policy which outlines the University’s expectations for the integrity of students’ academic work, the procedures for resolving alleged violations of those expectations, and the rights and responsibilities of students and faculty members throughout the process. Students are responsible for reading the Academic Honor Policy and for living up to their pledge to “. . . be honest and truthful and . . . [to] strive for personal and institutional integrity at Florida State University.” (Florida State University Academic Honor Policy, found at [http://fda.fsu.edu/Academics/Academic-Honor-Policy](http://fda.fsu.edu/Academics/Academic-Honor-Policy))

In addition, the following apply in the College of Nursing: the CON Student Academic Honesty (S -10), the CON Required Professional Behaviors Policy (S -16), and the CON Substance Abuse Policy (S - 5). Each policy can be found on the College of Nursing website at [https://nursing.fsu.edu/programs/student-policies](https://nursing.fsu.edu/programs/student-policies).

I have read the Academic Honor Policy of the Florida State University, the College of Nursing policies on Academic Honesty, Plagiarism, Substance Abuse, and Professional Critical Behaviors and understand the statements provided above.

I affirm my commitment to the concept of responsible freedom. I will be honest and truthful and will strive for personal and institutional integrity at Florida State University. I will abide by the Academic Honor Policy at all times.

Student Signature ________________________________ Date________________

Print Student Name ________________________________
SUBSTANCE ABUSE POLICY

Students who are unable to practice nursing with reasonable skills and safety to clients/patients due to the use of alcohol, drugs, or chemical or any other type of material or as a result of any physical or mental condition may be dismissed from the nursing program.

The College of Nursing is committed to maintaining a drug and alcohol-free workplace and academic environment; therefore, the use, possession, manufacturing, distribution, dispensing, selling or arranging to distribute illegal drugs and/or alcohol by students in the Florida State University College of Nursing will not be tolerated.

*Please be aware, all clinical sites affiliated with FSU CON are drug free/tobacco free environments.

Procedure

1. Upon admission, students must complete a urine drug screen using the Urine 10 Panel Test as provided by American Databank.

2. Should physical and/or behavioral signs of alcohol and/or other drug intoxication be exhibited by a student and/or detected by agency personnel, staff, clients, faculty or peers, the student will be required to immediately undergo testing by an independent laboratory designated by the College of Nursing or by using the Urine 10 Panel Test as provided by American Databank. The tests will consist of, but not be limited to, a Blood Alcohol Level and/or a Urine 10 Panel Test.

3. If the student tests positive in either of the above situations (#1 or #2), the student will be dismissed from the College of Nursing and the College of Nursing will make a referral to the Intervention Project for Nurses (IPN) program for further testing, counseling, and evaluation. If the student refuses to voluntarily cooperate with the IPN program, the student will be dismissed from the College of Nursing and no further consideration will be given for readmission. The only exception made will be results that coincide with a prescribed drug that is currently being taken by the student. This must and will be substantiated by a Medical Review Officer (MRO) associated with American Databank.

4. Students who have been dismissed must write a letter to the College of Nursing Admission and Graduation Committee asking for readmission.

5. Following dismissal, reinstatement into the College of Nursing will be contingent upon the student’s involvement and evaluation by IPN and/or one of the approved programs designed and approved by IPN. The student must have a period of success as documented by IPN for one (1) year.

6. Students will receive a letter from the College of Nursing Admissions, Retention and Graduation Committee informing the student of their decision.
CLINICAL CLEARANCE

Clinical Clearance is required for a student to participate in a required clinical experience. Any lapse in Clinical Clearance may result in the student being dropped from courses. For the health and safety of nursing students and the patients encountered in the nursing program, the FSU College of Nursing and participating agencies require current documentation of CPR, professional liability insurance, health insurance, and health status. Clinical Clearance will be issued when all documentation is current and complete. Please note: The criminal background check and 10-panel drug screen is an annual requirement.

- Current unencumbered/unrestricted RN License
- Personal health insurance
- Current CPR Certification
- Criminal History Background Check (annually)
- 10-panel drug screen (annually)
- Health Examination (annual PPD/TB screen)
- Affidavit of Good Moral Character (annually)

*The student will be responsible for information/practice related to standard precautions and bloodborne pathogens in the clinical setting. Please refer to pp. 54-58 of this handbook for reference and update as needed.

Upon provision of this information, as well as confirmation from the Assistant Dean for Graduate Programs that the signed preceptor approval form is on file in the Student Services Office, students will receive Clinical Clearance. Evidence of clinical clearance will be sent to the preceptor and student by way of a statement in the preceptor approval letter. Clinical clearance must be obtained before students can participate in clinical courses. Failure to provide evidence of Clinical Clearance may result in the student being dropped from the course. Some clinical agencies require additional background screening and drug testing prior to initiation of clinical activities at the agency.

It is the responsibility of the student to provide updated information and to obtain Clinical Clearance each semester. Clinical clearance documents should be submitted to your online Clinical Clearance account (American Databank).

GRADUATE STUDENT RECORD

The Graduate Program requires that the following information be kept current. Please provide updates to the following each semester to the Graduate Program Advisor.

1. Local address
2. Home phone number
3. Cellular phone number
4. E-mail address
5. Permanent address
6. Academic Honesty Statement
CRIMINAL BACKGROUND CHECKS

Florida Law restricts access to children, elderly and disabled patients by persons convicted of specific misdemeanors and felonies. (Chapter 435 Florida Statutes). This law places restrictions on health care facilities, which in turn require students to comply with the same restrictions as their employees and volunteers. On entry to any program in the College of Nursing, the student must submit to a FDLE/FBI Level II Criminal Background Check via American Databank. This includes, but is not limited to, a review of:

- County of Residence Criminal Records
- Residence History (last 7 years)
- Social Security Verification
- Nationwide Healthcare Fraud & Abuse Scan
- Nationwide Sexual Offenders Registry Scan

If any negative findings are reported to the College of Nursing from these reviews, the results will be forwarded to the Assistant Dean of the College of Nursing. After review of the documents, the Assistant Dean will discuss the findings with the student and request a copy of the Disposition of Charges to be placed in the student’s file. If the charges are incompatible with eligibility for licensure as a registered nurse in the state of Florida, the student will be dismissed from the program.

A waiver signed by the student will be placed in the student’s file allowing the College of Nursing to send a copy of this report to clinical facilities requiring this information. The clinical facility may determine that the information on the report does not meet their policies and may deny the student admission to the facility and/or access to their patients based on evidence of arrests or criminal convictions. If that should occur, and a comparable assignment cannot be made to meet the course objectives, the student’s enrollment in the College of Nursing will be discontinued.

Students will be required to submit a notarized Affidavit of Good Moral Character on an annual basis following the initial background check to certify that no offenses have been committed since the initial background check was completed. Absolute honesty is essential. Students who are not enrolled for two or more consecutive semesters will be required to resubmit all criminal background check materials at the time of re-entry.

Instructions for the Criminal Background Check through American Databank are available on the CON Graduate Program Canvas site. Digital fingerprinting may be done at any many agencies throughout Florida. Please read and follow all instructions very carefully to avoid errors, which could cause delays or result in the discontinuation of enrollment.
AFFIDAVIT OF GOOD MORAL CHARACTER

State of Florida  County of __________________________

Before me this day personally appeared __________________________ who, being duly sworn, deposes and says:

I am an applicant for employment as a caretaker (or similar position requiring level 2 screening under Chapter 435, Florida Statutes), or I am currently employed as a caretaker with:

The Florida State University College of Nursing

By signing this form, I am swearing or affirming that I have not been found guilty or entered a plea of guilty or no contest, regardless of the adjudication, to any of the following charges under the provisions of the Florida Statutes or under any similar statute of another jurisdiction. I also attest that I do not have a delinquency record that is similar to any of these offenses. I understand I must acknowledge the existence of any criminal records relating to the following list regardless of whether or not those records have been sealed or expunged. I understand that I am also obligated to notify my employer of any possible disqualifying offenses that may occur while employed in a position subject to background screening under Chapter 435, Florida Statutes.

Relating to:

Sections: 393.135 relating to sexual misconduct with certain developmentally disabled clients
394.459 relating to sexual misconduct with certain mental Health patients
415.111 adult abuse, neglect, or exploitation of aged persons or disabled adults
741.30 domestic violence and injunction for protection (defined in 741.28) means any assault, aggravated assault, battery, aggravated battery, sexual assault, sexual battery, stalking, aggravated stalking, kidnapping, false imprisonment, etc. of a family or household member
782.04 murder
782.07 manslaughter, aggravated manslaughter of an elderly person or disabled adult, or aggravated manslaughter of a child
782.07(1) vehicular homicide
782.09 killing an unborn child by injury to the mother
784.011 assault, if the victim of offense was a minor
794.021 aggravated assault
794.03 battery, if the victim of offense was a minor
794.045 aggravated battery
794.075 battery on a detention or commitment facility staff
797.01 kidnapping
797.02 false imprisonment
797.04(2) taking, enticing, or removing a child beyond the state limits with criminal intent pending custody proceedings
797.04(3) carrying a child beyond the state lines with criminal intent to avoid producing a child at a custody hearing or delivering the child to the designated person
790.115(1) exhibiting firearms or weapons within 1,000 feet of a school
790.115(2)(b) possessing an electric weapon or device, destructive device, or other weapon on school property
794.011 sexual battery
794.041 prohibited acts of persons in familial or custodial authority (former)

**ONE OF THE FOLLOWING STATEMENTS MUST BE MADE:**

Under the penalty of perjury, which is a first degree misdemeanor, punishable by a definite term of imprisonment, not exceeding one year and/or a fine not exceeding $1,000 pursuant to ss.837.012, or 775.082, or 775.083, Florida Statutes, I attest that I have read the foregoing, and I am eligible to meet the standards of good character for this caretaker position.

[Signature of Affiant]

OR

To the best of my knowledge and belief, my record may contain one or more of the foregoing disqualifying acts or offenses.

[Signature of Affiant]

OR

for teachers and non-instructional personnel in lieu of fingerprint submission:

I swear or affirm that I have been fingerprinted under Chapter 1012, Florida Statutes, when employed as a teacher or non-instructional employee and have not been unemployed from the school board for more than 90 days. I swear the findings of that background check did not include any of the above offenses and that I meet the standards of good character for this caretaker position.

[Signature of Affiant]

OR

To the best of my knowledge and belief, my record may contain one or more of the foregoing disqualifying acts or offenses.

[Signature of Affiant]

Sworn to and subscribed before me this _____ day of __________________, ______

[My commission expires]

NOTARY PUBLIC, STATE OF FLORIDA

My signature, as a Notary Public, verifies the affiant's identification has been validated by

Preventing the Spread of Bloodborne Pathogens

Bloodborne pathogens, such as bacteria and viruses, are present in blood and body fluids and can cause disease in humans. The bloodborne pathogens of primary concern are hepatitis B, hepatitis C and HIV. These and other bloodborne pathogens are spread primarily through:

- **Direct contact.** Infected blood or body fluid from one person enters another person’s body at a correct entry site, such as infected blood splashing in the eye.
- **Indirect contact.** A person’s skin touches an object that contains the blood or body fluid of an infected person, such as picking up soiled dressings contaminated with an infected person’s blood or body fluid.

Follow standard precautions to help prevent the spread of bloodborne pathogens and other diseases whenever there is a risk of exposure to blood or other body fluids. These precautions require that all blood and other body fluids be treated as if they are infectious. Standard precautions include maintaining personal hygiene and using personal protective equipment (PPE), engineering controls, work practice controls, and proper equipment cleaning and spill cleanup procedures.

**TO PREVENT INFECTION, FOLLOW THESE GUIDELINES:**

- Avoid contact with blood and other body fluids.
- Use CPR breathing barriers, such as resuscitation masks, when giving ventilations (rescue breaths).
- Wear disposable gloves whenever providing care, particularly if you may come into contact with blood or body fluids. Also wear protective coverings, such as a mask, eyewear and a gown, if blood or other body fluids can splash.
- Cover any cuts, scrapes or sores and remove jewelry, including rings, before wearing disposable gloves.
- Change gloves before providing care to a different victim.
- Remove disposable gloves without contacting the soiled part of the gloves and dispose of them in a proper container.
- Thoroughly wash your hands and other areas immediately after providing care. Use alcohol-based hand sanitizer where hand-washing facilities are not available if your hands are not visibly soiled. When practical, wash your hands before providing care.

**TO REDUCE THE RISK OF EXPOSURE, FOLLOW THESE ENGINEERING AND WORK PRACTICE CONTROLS:**

- Use biohazard bags to dispose of contaminated materials, such as used gloves and bandages. Place all soiled clothing in marked plastic bags for disposal or cleaning. Biohazard warning labels are required on any container holding contaminated materials.
- Use sharps disposal containers to place sharps items, such as needles.
- Clean and disinfect all equipment and work surfaces soiled by blood or body fluids.
  - Use a fresh disinfectant solution of approximately 1 ½ cups of liquid chlorine bleach to 1 gallon of water (1 part bleach per 9 parts water, or about a 10% solution) and allow it to stand for at least 10 minutes.
  - Scrub soiled boots, leather shoes and other leather goods, such as belts, with soap, a brush and hot water. If worn, wash and dry uniforms according to the manufacturer’s instructions.
IF YOU ARE EXPOSED, TAKE THE FOLLOWING STEPS IMMEDIATELY:

- Wash needlestick injuries, cuts and exposed skin thoroughly with soap and water.
- If splashed with blood or potentially infectious material around the mouth or nose, flush the area with water.
- If splashed in or around the eyes, irrigate with clean water, saline or sterile irrigants for 20 minutes.
- Report the incident to the appropriate person identified in your employer’s exposure control plan immediately. Additionally, report the incident to emergency medical services (EMS) personnel who take over care.
- Record the incident by writing down what happened. Include the date, time and circumstances of the exposure; any actions taken after the exposure; and any other information required by your employer.
- Seek immediate follow-up care as identified in your employer’s exposure control plan.

Occupational Safety and Health Administration (OSHA) regulations require employers to have an exposure control plan, a written program outlining the protective measures the employer will take to eliminate or minimize employee exposure incidents. The exposure control plan guidelines should be made available to employees and should specifically explain what they need to do to prevent the spread of infectious diseases.

Additionally, OSHA requires that a hepatitis B vaccination series be made available to all employees who have occupational exposure within 10 working days of initial assignment, after appropriate training has been completed. However, employees may decide not to have the vaccination. The employer must make the vaccination available if an employee later decides to accept the vaccination.

Check out OSHA’s website (www.osha.gov) or refer to your employer’s exposure control officer for more information on OSHA’s Bloodborne Pathogens Standard (29 CFR part 1910.1030).
Removing Disposable Gloves

Note: To remove gloves without spreading germs, never touch your bare skin with the outside of either glove.

1 PINCH GLOVE
Pinch the palm side of one glove near your wrist. Carefully pull the glove off so that it is inside out.

2 SLIP TWO FINGERS UNDER GLOVE
Hold the glove in the palm of your gloved hand. Slip two fingers under the glove at the wrist of the remaining gloved hand.

3 PULL GLOVE OFF
Pull the glove until it comes off, inside out. The first glove should end up inside the glove you just removed.

4 DISPOSE OF GLOVES AND WASH HANDS
After removing the gloves:
- Dispose of gloves and other personal protective equipment (PPE) in a proper biohazard container.
- Wash your hands thoroughly with soap and running water, if available. Otherwise, rub hands thoroughly with an alcohol-based hand sanitizer if hands are not visibly soiled.
# STANDARD

Assume that every person is potentially infected or colonized with an organism that could be transmitted in the healthcare setting and apply the following infection control practices.

## Hand Hygiene
Avoid unnecessary touching of surfaces in close proximity to the patient.

- When hands are visibly dirty, contaminated with proteinaceous material, or visibly soiled with blood or body fluids, wash hands with soap and water.
- If hands are not visibly soiled, or after removing visible material with soap and water, decontaminate hands with alcohol-based hand rub. Alternatively, hands may be washed with an antimicrobial soap and water.

Perform Hand Hygiene:
- Before having direct contact with patients
- After contact with blood, body fluids, or excretions, mucous membranes, non-intact skin, or wound dressings
- After contact with a patient’s intact skin (e.g., when taking a pulse or blood pressure or lifting a patient)
- If hands will be moving from a contaminated body site to a clean body site during patient care
- After contact with inanimate objects (including medical equipment) in the immediate vicinity of the patient
- After removing gloves

## Personal Protective Equipment (PPE)
Wear PPE when the nature of the anticipated patient interaction indicates that contact with blood or body fluids may occur.

Before leaving the patient’s room or cubicle, remove and discard PPE.

### Gloves
Wear gloves when contact with blood or other potentially infectious materials, mucous membranes, non-intact skin, or potentially contaminated intact skin (e.g., of a patient incontinent of stool or urine) could occur.

Remove gloves after contact with a patient and/or the surrounding environment using proper technique to prevent hand contamination. Do not wear the same pair of gloves for the care of more than one patient.

Change gloves during patient care if the hands will move from a contaminated body site (e.g., perineal area) to a clean body site (e.g., face).

### Gowns
Wear a gown to protect skin and prevent soiling or contamination of clothing during procedures and patient-care activities when contact with blood, body fluids, secretions, or excretions is anticipated.

Wear a gown for direct patient contact if the patient has uncontained secretions or excretions.

Remove gown and perform hand hygiene before leaving patient’s environment.

### Mouth, Nose, Eye Protection
Use PPE to protect the mucous membranes of the eyes, nose and mouth during procedures and patient-care activities that are likely to generate splashes or sprays of blood, body fluids, secretions or excretions.

During aerosol-generating procedures, wear one of the following: a face shield that fully covers the front and sides of the face, a mask with attached shield, or a mask and goggles.

### Respiratory Hygiene/Cough Etiquette
Educate healthcare personnel to contain respiratory secretions to prevent droplet and fomite transmission of respiratory pathogens, especially during seasonal outbreaks of viral respiratory tract infections. Offer masks to coughing patients and other symptomatic persons (e.g. persons who accompany ill patients) upon entry into the facility.

### Patient Placement
Include the potential for transmission of infectious agents in patient-placement decisions.

### Patient-Care Equipment and Instruments/Devices
Wear PPE (e.g., gloves, gown) according to the level of anticipated contamination, when handling patient-care equipment and instruments/devices that are visibly soiled or may have been in contact with blood or body fluids.

### Care of the Environment
Include multi-use electronic equipment in policies and procedures for preventing contamination and for cleaning and disinfection, especially those items that are used by patients, those used during delivery of patient care, and mobile devices that are moved in and out of patient rooms frequently (e.g., daily).

### Textiles and Laundry
Hand used textiles and fabrics with minimum agitation to avoid contamination of air, surfaces and persons.

### Safe Injection Practices
Needles, cannulae and syringes are sterile, single-use items; they should not be reused for another patient nor to access a medication or solution that might be used for a subsequent patient.
GUIDELINE FOR ISOLATION PRECAUTIONS
Preventing Transmission of Infectious Agents in Healthcare Settings

Standard Precautions

IV. Standard Precautions

Assume that every patient is potentially infected or colonized with an organism that could be transmitted in the healthcare setting and apply the following infection control practices during the delivery of healthcare.

I.A. Hand Hygiene

I.A.1. During the delivery of healthcare, avoid unnecessary touching of surfaces in close proximity, and use hand hygiene to prevent both contact and airborne transmission of pathogens from contaminated hands to surfaces.

I.A.2. When hands are visibly dirty, contaminated with proteinaceous material, or visibly soiled with blood or body fluids, wash hands with either a non-antimicrobial soap and water or an antimicrobial soap and water.

I.A.3. If hands are not visibly soiled, or after removing visible material with non-antimicrobial soap and water,also perform hand decontamination in the clinical situations described in IV.A.2. The practice of hand hygiene and the availability of hand hygiene products should never be compromised by personnel shortages or other logistical barriers to hand hygiene.

I.A.4. Hands may be washed with an antimicrobial soap and water. Frequent use of alcohol-based hand rubs has been associated with increase the frequency of dermatitis.

I.A.5. Before direct contact with patients.

I.A.6. After contact with blood, body fluids or excretions, mucous membranes, or non-intact skin.

I.A.7. After contact with inanimate objects (including medical equipment) in the immediate vicinity of the patient.

I.A.8. After removing gloves.

I.A.9. After touching items used with non-antimicrobial soap and water or antimicrobial soap and water in contact with soaps (e.g., C. difficile or diarrhoeal amoebae) is likely to have occurred.

The physical action of washing and rinsing hands under such circumstances is recommended before eating, visiting, and other activities involving food or other environments.

I.A.10. Do not wear artificial fingernails or extensions as they do not include direct contact with patients who are at risk for infection.

I.A.12. Develop an organizational policy on the weighing of non-white nails by healthcare personnel before direct contact with patients whose nails are outside of the groups specified above.

I.B. Personal protective equipment (PPE)

I.B.1. Observe the following principles of use.

I.B.1.1. Wear PPE, as described in Section IV.B.1.4, when the nature of the anticipated patient interaction indicates that contact with blood or body fluids may occur.

I.B.1.2. Follow standard precautions for the donor skin, personal protective equipment, and direct contact with patients whose nails are outside of the groups specified above.

I.B.1.3. Select appropriate equipment for individual patients.

I.C. Respiratory hygiene/Cough etiquette

I.C.1.3. Avoid close contact with people who have respiratory symptoms.

I.C.1.4. Stay home if you are feeling ill with respiratory symptoms.

I.C.1.5. Practice respiratory hygiene/cough etiquette.

I.C.1.6. Wear a mask or face coverings when in close proximity to others.

I.C.1.7. Wash hands frequently with soap and water or use hand sanitizer.

I.C.1.8. Use hand sanitizer before and after touching any surfaces.

I.C.1.9. Do not touch your face.

I.C.1.10. Cover coughs and sneezes with a tissue or flexed elbow.

I.V. Patient isolation

I.V.1.1. Include the following in patient isolation precautions.

I.V.1.2. Place patients who present a risk for transmission to others (e.g., unexplained seizures, excoriations or wounds drainage, infections with suspected or confirmed respiratory or gastrointestinal infections) in a single-patient room when available.

I.V.2. Determine patient placement based on the following principles.

I.V.2.1. Assess the presence of the known or suspected infectious agent.

I.V.2.2. Risk factors for transmission of the patient.

I.V.3. When using PPE (e.g., gloves, gown), according to the level of anticipated contamination, when handling patient equipment and instruments that are visibly soiled or may have been in contact with blood or body fluids.

I.V.4. Cope with the environment

I.V.4.1. Establish policies and procedures for routine and targeted cleaning of the environment.

I.V.4.2. Clean and disinfect surfaces that are likely to be contaminated with pathogens.

I.V.4.3. Continue to monitor the environment for pathogens, including those that are most likely to be transmitted to healthcare personnel.

I.V.4.4. Use EPA-regulated disinfectants that have microbicidal activity against the pathogens most likely to contaminate the patient-care environment.

I.V.4.5. Include in the policies and procedures for risk assessment the level of anticipated contamination, cleaning, and disinfection.

I.V.4.6. Use barrier protection in high-risk patient care areas.

I.V.4.7. Use personal protective equipment (PPE) according to the level of anticipated contamination.

I.V.4.8. Use HBV (e.g., hepatitis B) and HIV (e.g., human immunodeficiency virus) seropositive patients.

I.V.4.9. Use HBV (e.g., hepatitis B) and HIV (e.g., human immunodeficiency virus) seropositive patients.

I.V.4.10. Use HBV (e.g., hepatitis B) and HIV (e.g., human immunodeficiency virus) seropositive patients.

I.V.4.11. Use HBV (e.g., hepatitis B) and HIV (e.g., human immunodeficiency virus) seropositive patients.

I.V.4.12. Use HBV (e.g., hepatitis B) and HIV (e.g., human immunodeficiency virus) seropositive patients.

I.V.4.13. Use HBV (e.g., hepatitis B) and HIV (e.g., human immunodeficiency virus) seropositive patients.

I.V.4.14. Use HBV (e.g., hepatitis B) and HIV (e.g., human immunodeficiency virus) seropositive patients.

I.V.4.15. Use HBV (e.g., hepatitis B) and HIV (e.g., human immunodeficiency virus) seropositive patients.

I.V.4.16. Use HBV (e.g., hepatitis B) and HIV (e.g., human immunodeficiency virus) seropositive patients.

I.V.4.17. Use HBV (e.g., hepatitis B) and HIV (e.g., human immunodeficiency virus) seropositive patients.

I.V.4.18. Use HBV (e.g., hepatitis B) and HIV (e.g., human immunodeficiency virus) seropositive patients.

I.V.4.19. Use HBV (e.g., hepatitis B) and HIV (e.g., human immunodeficiency virus) seropositive patients.

I.V.4.20. Use HBV (e.g., hepatitis B) and HIV (e.g., human immunodeficiency virus) seropositive patients.

I.V.4.21. Use HBV (e.g., hepatitis B) and HIV (e.g., human immunodeficiency virus) seropositive patients.

I.V.4.22. Use HBV (e.g., hepatitis B) and HIV (e.g., human immunodeficiency virus) seropositive patients.

I.V.4.23. Use HBV (e.g., hepatitis B) and HIV (e.g., human immunodeficiency virus) seropositive patients.

I.V.4.24. Use HBV (e.g., hepatitis B) and HIV (e.g., human immunodeficiency virus) seropositive patients.

I.V.4.25. Use HBV (e.g., hepatitis B) and HIV (e.g., human immunodeficiency virus) seropositive patients.

I.V.4.26. Use HBV (e.g., hepatitis B) and HIV (e.g., human immunodeficiency virus) seropositive patients.

I.V.4.27. Use HBV (e.g., hepatitis B) and HIV (e.g., human immunodeficiency virus) seropositive patients.

I.V.4.28. Use HBV (e.g., hepatitis B) and HIV (e.g., human immunodeficiency virus) seropositive patients.

I.V.4.29. Use HBV (e.g., hepatitis B) and HIV (e.g., human immunodeficiency virus) seropositive patients.

I.V.4.30. Use HBV (e.g., hepatitis B) and HIV (e.g., human immunodeficiency virus) seropositive patients.
ACADEMIC RESOURCES
LIBRARY RESOURCES

On the library homepage (www.lib.fsu.edu) you will find a Research Guide for Nursing (http://guides.lib.fsu.edu/nursing) which links you to all the databases and gives you a tutorial for searching databases. The nursing subject librarian is Kelly Grove, kegrove@fsu.edu. She is a wonderful resource for answering question about the library or finding articles.

FSU Library List of Services

From the library homepage, you can click on Services and it has a list of all services available to graduate students.

The following are just a few of the services:

*Ask a Librarian* - Ask a librarian provides FSU students, faculty, and staff with virtual reference services through live chat and text messaging whenever the library is open.

*Subject librarians* - They order materials, perform consultations, and work with graduate students and faculty of FSU. Nursing subject librarian is Kelly E. Grove.

*Bradley Reading Room* – The Scholars Commons Reading Room (located on the ground floor of Strozier Library) provides an environment for independent and collaborative research. The Scholars Commons Reading Room (located on the ground floor of Strozier Library) provides an environment for independent and collaborative research.

*Consultation* – A consultation with a librarian who specializes in your area of study will be able to assist with your research needs at any level.

*DigiNole* – Florida State University’s digital repository, provides online access to thousands of unique and historical materials, as well as the products of original research by the FSU community.

*Get Library Help* – Research help at the libraries includes face to face and virtual. Search the Research Guides for specific areas of study, contact a librarian who specializes in your area, or use chat.

*Interlibrary Loan* – Interlibrary Loan (ILL) is a service where a student, faculty, or staff of Florida State University may obtain books or obtain photocopies of articles from other institutions.

*Off Campus Access* – Access to our resources off-campus requires logging into a proxy server. Logging in allows databases to recognize you as a member of FSU and to download and browse articles as needed.

*UBorrow* – Allows you to request materials directly from participating libraries within Florida’s state university and college system. This unmediated borrowing service increases your access to
the collections of the other universities and colleges in Florida and delivers faster than standard Interlibrary Loan.

Writing Center @ Strozier – The Reading/Writing Center (RWC) is available at Strozier on the main floor, next to the reference desk. The RWC offers individualized instruction in composition and reading through one-to-one tutoring and small group workshops. Students may make appointments or walk-in for assistance. Students can be seen at the writing center by appointment or as walk-in. CON encourages graduate students to take ENG 5998, an online writing course through the English Department. ENG 5998 provides individualized instruction for graduate students working on papers, articles, research projects, these, and dissertation. They now offer students the opportunity to schedule appointments online, 24/7. To make an appointment, please visit this website: fsu.mywconline.com. If you are interested in take ENG 5998 contact the Dr. Jude Marr of the RWC at jmarr@fsu.edu.

General Library Information

The Paul Dirac Science Library, in the heart of the Science Center complex scientific and technical books and periodicals. Public access terminals and microcomputers connected to the University’s Computer Center are available for student use. Many nursing-related journals are housed here. Contact numbers is (850) 644-5534.

The Robert Manning Strozier Library and its four branch libraries hold over 1,800,000 books and periodicals, over 150,000 maps, and over 590,000 government documents. The library is a depository for U.S. Federal and State of Florida documents as well as for the United Nations and UNESCO. Within the library is a Micro Materials Center with facilities for making paper copies of microforms. The FSU library has acquired many electronic journals, books and databases, which are available to students and faculty. Please go to http://www.lib.fsu.edu/ for a description of the services provided by the FSU Library. Tutorials on use of e-journals and databases are located at this website.

The Library Users Information Service (LUIS) allows access to an on-line computer catalog of the holdings of all the libraries at Florida State University and of each library in the State University System of Florida. Bibliographical subject searches are provided by library staff through computer terminals located in the Strozier and Dirac libraries. Through the Inter-Library Loan Program, materials may be borrowed from other libraries at no or minimal cost. Library hours change during breaks, holidays, and summer sessions. Call (850) 644-3278 for a recorded message giving current hours.

The College of Medicine Medical Library Though the emphasis is on delivering information electronically whenever available, the Medical Library has acquired a quality core print collection of books and journals. The Medical Library collection focuses on medicine and delivery of medical care to rural, geriatric and other underserved populations. The library’s collection includes electronic journals and on-line medical databases which are accessible to nursing students and can be accessed through an off-campus proxy server. For general information contact the library at (850) 644-3883 or see www.med.fsu.edu/library.
CON RESOURCES

Simulation and Skills Laboratory is a suite for practice and demonstration located on the third floor of the College of Nursing Building. The facility is fully equipped with a wide variety of supplies and equipment. It may be used for practicing such skills as advanced health assessment and can also provide graduate Teaching Assistants practice teaching opportunities with undergraduate students. The Skills Lab also houses the adult and pediatric Human Patient Simulators. For practice with either, arrange dates and times with Lab Coordinator at (850) 645-0657.

COMPUTER RESOURCES

Establishing a Student Internet Account

All FSU faculty, staff, students, retirees, and alumni are eligible to receive email accounts. For most users, the email login and password credentials will be the same as their FSUID. Students email addresses are created after activating an FSUID. Students are normally issued email addresses based on the first initial of their first, middle, last name, and the 2-digit year of admission. For more information go to Information Technology Services at http://its.fsu.edu.

College of Nursing Graduate Program Canvas Site

Provides Information and announcements pertaining to the College of Nursing and the Graduate Nursing Program. Students are encouraged to check this site weekly to keep informed of upcoming events and updated materials. Please contact Brittany Stover if you do not have access to the Org: CON Graduate Program Canvas site.

FSU Information Technology Services

There is a Guide to Computing at FSU and other information available from their web site http://www.its.fsu.edu and the help desk is at http://helpdesk.fsu.edu.

FSU Computer Store

Handles all computer purchase programs enabling students, faculty and staff to purchase Apple, Compaq, Dell and Gateway computers at educational prices. Information and pricing is available at the Computer Store web site http://www.bkstr.com/floridastatetstore/shop/technology/computers-and-tablets.

FSU Bookstore

Handles all software packages and offers exceptional education pricing. Software is available in the store and on-line at http://www.fsu.bkstr.com or (850) 644-2072.
Computer Labs

FSU Information Technology Services (ITS) provides a virtual computer lab, myFSUVLab, that is available to the entire university. This lab is open to all FSU students, faculty, and staff. myFSUVLab is accessible at https://myfsuvlab.its.fsu.edu/vpn/index.html. To sign in, use your FSUID and password. Go to https://its.fsu.edu/service-catalog/end-point-computing/myfsuvlab to get more information.

COMPUTER SPECIFICATIONS

Part 1: Computer System Specifications

Hardware:
Any computer that is older than 2 years will typically not be able to perform the tasks required to complete the program. Your computer needs to have full multimedia capabilities (sound, microphone, and web cam). Headphones or ear buds, web cam, and microphone will be required to access online presentations and to participate in online video conferencing sessions. An important part of your computer is having a plan for backing up your data. There are several inexpensive services (Dropbox, OneDrive, Carbonite, etc.) that will ensure your important files are automatically backed up.

Software:
The University provides you with a free version of Microsoft Office 365 with your FSU account. The link below will take you to the FSU Information Technology Services site for Student Essentials: http://its.fsu.edu/student-essentials. This page explains what is available and offers links to imports sites. You will want to make sure you have an anti-virus program (Microsoft Security Essentials is free) and keep your computer software updated. Software is typically updated every month and you need to make sure you have the latest updates for your computer to function properly.

Internet Connection:
As a student, you are responsible for setting up an account with an Internet Service Provider (ISP), a company that provides the software and service necessary for accessing the Internet. If you are not comfortable troubleshooting problems on your computer, you will want to sign up with an ISP with a 24-hour help desk.

Internet Browsers:
It is highly recommended that you load at least two browsers on your computer. If you have problems accessing course material the first thing to do is try a different browser. The most popular browsers are Chrome, Firefox, Safari, and Microsoft Edge. All browsers are constantly being updated and it is important to check for updates.

Mobile device (smart phones, tablets, etc.):
You are required to have a device with a mobile app for your use in the clinical setting. You can download various useful mobile apps from the FSU College of Medicine Maguire library site. Go to https://www.lib.fsu.edu; go to libraries in the drop-down box, click on Maguire Medical
Library in the Resources box, click on Mobile Resources. You will find a number of resources that you can put on your mobile device. You need to follow the directions for each item in order to access it. These apps are free for FSU students. The following is the direct web address for the College of Medicine’s library site: https://med.fsu.edu/library.

If you have questions about other apps to purchase contact Dr. Porterfield and she can help with your decision.

Part 2: Communications

E-Mail Service:
As an FSU student, you will receive a University e-mail account that is used for all communications from the University. It is your responsibility to check your email at least daily and to ensure that if you have forwarding set up for your email that it is working properly.

Videoconferencing:
You will need a webcam, a microphone and a set of earphones or ear buds to participate in videoconferencing required for some online and practicum courses. If your laptop does not have a built-in microphone you will need to purchase an external microphone to participate in the videoconferences. Please note that if you have problems accessing videoconferencing sessions with your computer a good alternative may be to use your smartphone or tablet; they come standard with built-in cameras and microphones.

Human Resourcefulness:
The success of technology application depends on your persistence and ingenuity. Your grades will not depend on your successful use of technology, but successfully using technology will enhance your educational experience. Please do your best to make it work. It is highly recommended to have a network for technical support. Share problems, useful experiences and tips with your classmates and instructors on the Discussion of your course sites. The University provides general computer support by phone (850-644-4357) and its website: https://its.fsu.edu/its-service-desk. Canvas support is provided through the Canvas website, the Canvas Support site: http://support.canvas.fsu.edu, by e-mailing canvas@fsu.edu, or calling (850) 644-8004.
RESEARCH AND STATISTICS

Ranked in the prestigious Carnegie Foundations Research I Universities category, the Florida State University places paramount importance on the value of quality research. Accordingly, the College of Nursing equally values the primary importance of research in nursing education.

College of Nursing also has a statistical advisor, Dr. Glenna Schluck at (850) 645-0699 or glenna.schluck@fsu.edu. Please call her to make an appointment as needed.

GRADUATE STUDENT FACILITIES

Graduate Nursing Students may reserve either a classroom or a conference room in Duxbury Hall as needed for academic purposes. Requests are to be made to Jackie Sessions and should be given at least two weeks in advance. She is in Room 461 and can be reached at (850) 644-5100 or jsessions@fsu.edu.

OTHER UNIVERSITY FACILITIES AND SERVICES

Florida State University offers a vast range of services, which enhance the academic experience. The Oglesby Student Union is currently under construction and is scheduled to be completed in the 2022. The student union offers postal, food, banking, and traveling services. The University Book Store (850-644-2072), located on the ground floor of the Woodward Parking Garage, offers a wide variety of student supplies, software, sportswear, and texts. Online orders can be placed at http://www.fsu.bkstr.com. Another excellent source from which to obtain course-required texts is Bill’s Bookstore. Go to http://www.billsbookstore.com for locations and hours of operations. Ambulatory health services, including counseling and stress management, are available to students at the Health and Wellness Center (850-644-6230). The Leach Student Recreation Center (850-644-0550) offers an array of fitness activities, including work-out equipment, indoor track, racquet ball and squash courts, and Olympic-sized swimming pool. A number of intramural programs are also available each semester. Contact the Campus Recreation Office at 850-644-0551.

The University provides many fine arts programs and cultural activities with music, theater, dance, and visual arts events held throughout the year. “Opening Nights” is a yearly festival which brings to campus world-renowned actors, authors, musicians, and artists in the fine and performing arts.

The Office of Financial Aid can provide information on financial assistance opportunities from a number of sources (850) 644-0539; https://financialaid.fsu.edu. The Career Center, located in Albert and Judith Dunlap Student Success Center at 100 South Woodward, provides career counseling and advising services (resume writing, job locators). (850) 644-6431. The Office of Parking Services is responsible for the administration of the parking and transportation program on campus (850) 644-5278.
PROFESSIONAL ACTIVITIES/ORGANIZATIONS/FELLOWSHIPS

Sigma Theta Tau

For more than 75 years the Sigma Theta Tau International Honor Society of Nursing has promoted excellence across all areas of nursing practice, from clinical and research to education and administration. It leads and supports the scientific inquiry into how nursing can best respond to patient needs. Members have access to an unequaled array of resources that can be used to benefit their careers in an international community of nurses that positions the profession at the forefront of health care by supporting scholarship, research, and leadership worldwide.

FSU’s chapter is Beta Pi. Membership is conferred upon students who demonstrate exceptional academic performance as well as working nurses who have demonstrated exceptional achievements in their practice. To be eligible for membership as a graduate degree student, one must have completed one-quarter of the graduate program, achieved a grade point average of at least 3.5 on a 4.0 scale, and meet the expectation of academic integrity.

Alumni Association

The College of Nursing Alumni Association was organized in 1977 to (1) provide an opportunity to maintain a life-long association with the College (2) provide a framework for alumni with a common interest to meet formally or informally for educational, professional, and other alumni-oriented purposes (3) provide an advisory service to the College of Nursing and its alumni and (4) stimulate continued interest in and financial support from the College of Nursing at Florida State University.

The leadership of the College of Nursing Alumni Association encourages alumni to participate in the recruitment of qualified students to the nursing program, to support the development of scholarship fund, to assist in the beautification of the Nursing Building, and to promote interest in Florida State University in their local areas.

The Alumni Association has an annual get-together during Homecoming weekend with recognition anniversaries of certain classes. Any College of Nursing alumnus, or friend whose interests are related, is eligible for membership in this Association. Contact the College of Nursing Dean’s Office at (850) 644-3299 for more information.

Membership on College of Nursing Committees

The Bylaws of the College of Nursing explicitly include student membership on committees. You may be asked, or may volunteer, to serve on the Admission, Curriculum, Student Affairs, and Program Evaluation committees as a graduate student representative. Contact the Assistant Dean for Graduate Programs, Dr. Porterfield, for additional information.
Florida Nurses Association (FNP)
If you are not a member of the Florida Nurses Association (FNA) the faculty strongly encourages you to join. The address of the FNA is 1235 East Concord St., Orlando, FL 32853-6985, their telephone number is (407) 896-3261 and website is www.floridanurse.org. Masters and DNP prepared nurses have the responsibility of leadership in the profession. The FNA is the voice of the profession and is an agent for change.

American Association of Nurse Practitioners (AANP)
If you are a nurse practitioner (NP), NP student or person or organization interested in the NP role, the American Association of Nurse Practitioners® (AANP) has the information, tools and resources you need. Shaped by the shared vision and challenges of our growing NP community, AANP aims to empower all NPs to advance quality health care through practice, education, advocacy, research and leadership. AANP website is https://www.aanp.org/

Graduate Nursing Student Organization (GNSA)
The Graduate Nursing Student Association (GNSA) was organized in the Spring of 1992. Its purpose is to provide a social support system and academic network for graduate students to promote the interests of graduate students and provide formal input into the College of Nursing graduate program. Membership is open to any graduate nursing student. Participation in this organization offers the opportunity for representation on the Dean’s Advisory Committee and to serve as liaison to the Council for Advanced Practice Nursing. Officers should be elected in the Fall semester of each year.

Council of Advanced Practice Nursing (CAPN)-Tallahassee
The Council of Advanced Practice Nurses meets monthly in Tallahassee for continuing education and networking. The Graduate Nursing Student Organization sends a student representative to this meeting. Students may join for a reduced rate, or they may attend any meeting (which provides dinner) for a small fee for Contact Hours. CAPN website is https://capntally.enpnetwork.com/.

Florida Nurse Practitioner Network (FNPN)-Florida
FNPN is a network of Nurse Practitioners across all specialties and setting in Florida. FNPN was founded in 2002 through a vision and passion to unite all the NP groups in to organization to affect real change in the profession. The FNPN mission is to promote our profession in such a manner and environment that allows NP to provide the very best health care possible to the citizens of Florida. FNPN website is https://fnpn.enpnetwork.com/

Sarasota County Nurse Practitioners (SCNP) -Sarasota
Sarasota County Nurse Practitioners promote excellence in practice, education, policy, and research. They serve as a resource for NPs, their patients and other health care consumers. They provide educational and professional development for nurse practitioners and encourage networking between members. SCNP website is https://sarasotacountynp.enpnetwork.com/
Central Florida Advance Nursing Practice Council (CFANPC)
The Central Florida Advanced Nursing Practice Council (CFANPC) is an association of Advanced Practice Nurses organized to advance, foster, encourage, promote and improve the care given to patients by Advanced Practice Nurses. CFANPC website is https://cfanpc.enpnetwork.com/

GRADUATE TEACHING/RESEARCH ASSISTANTSHIPS

Teaching Assistants (TA) and Research/Graduate Assistants (GA)
The College of Nursing may employee TA/GAs if positions and funds are available. A Student interested in becoming a graduate assistant (TA or GA) must first contact the Assistant Dean of Graduate Programs to discuss general requirements. The prospective GA will then submit in writing to the Assistant Dean for Graduate Programs her/his desire to become a GA and a current CV/resume. Additional polices and information available for GA can be found in the current FSU Graduate Bulletin.

GA General Requirements
Graduate assistants are identified by levels according to their specific responsibilities. Refer to student policy G-3 Graduate Assistantship for specific information in general all GA’s, regardless of levels, must meet the following general requirements:

1. Have a BS degree in Nursing.
2. Hold a current Florida RN license.
3. Have had recent clinical nursing experience.
4. Be fully admitted to the Doctor of Nursing Practice (DNP) Program in the College of Nursing.
5. Be in good academic standing with a minimum GPA of 3.0.
6. Register for a minimum of 9 credit hours during the semester they are employed as a GA.
7. Attend orientations to the College of Nursing, to clinical agencies, and to the specific course to which they are assigned, including all course and level term meetings, if applicable.
8. Confer on a weekly basis with the assigned Faculty to which they are assigned.
9. Adhere to policies and procedures of Florida State University, the College of Nursing, and assigned course.
10. Teaching Assistants must register for a minimum of 1 credit hour in NGR 5941L (Supervised Teaching) during the first semester they are employed as a TA. Participation in weekly seminars is required. TAs must also attend orientation programs conducted by the FSU Program for Instructional Excellence (PIE), both days.
FACULTY RESEARCH INTERESTS
FACULTY RESEARCH INTERESTS

Faculty will be discussing their research interests in various forums with graduate students early in the program. Students are encouraged to contact faculty who have interests which are similar to theirs to discuss thesis and/or research project topics. Please visit the College of Nursing website (http://nursing.fsu.edu/people/specialized-teaching-faculty) to read in detail about faculty and their current research interests.

PRECEPTOR INFORMATION
The purpose of the clinical preceptor program is to provide the students with a professional role model whose guidance will enhance the attainment of student learning. The preceptor will act as a facilitator and resource person to the student during the clinical learning experiences and will participate in the evaluation of the student’s learning. The preceptor will act as a facilitator and resource person to the student during the clinical learning experiences and will participate in the evaluation of the student’s learning. A preceptor handbook and training module have been developed and will be supplied to the preceptor by the student or Assistant Dean for Graduate Programs.

**Functions and Responsibilities of the College of Nursing:**
1. CON verifies that an FDLE/FBI Level II Background Screening has been completed for the student.
2. CON verifies that the student meets the clinical clearance requirements and able to start participating in the clinical experience.
3. Additionally, CON verifies that the student has completed the required drug screening, has personal health insurance, has professional liability insurance coverage, and proof of current, unencumbered Registered Nurse license in the United States.

**Functions and Responsibilities of the Preceptor:**
1. Participate in a preceptor orientation.
2. Function as a role model at the clinical site.
3. Orient the student to the agency/clinical site.
4. Assure safe nursing practice by supervising the student’s performance of clinical skills.
5. Assist the student in identification and monitoring of available activities, which accomplish the clinical objectives.
6. Communicate verbally and in writing with the student and collaborate with the faculty regarding student performance.
7. Provide feedback to the nursing program regarding clinical activities for students and suggestions for curriculum/program development as needed.
8. Keep the faculty informed of student performance when needed or if any problems occur.
9. Participate in evaluation of the preceptor program as needed.

**Functions and Responsibility of the Student:**
1. Participate in the selection of a clinical practicum and preceptor, when appropriate.
2. Supply preceptor will a copy of the course syllabus.
3. Maintain accountability for her/his learning activities.
4. Prepare for each clinical experience as needed and expected.
5. Be accountable for nursing practice activities while in the clinical setting. Arrange with your preceptor your clinical schedule for the semester.
6. Share learning experiences in grand rounds, clinical seminars, and student/preceptor/faculty conferences.
7. Keep open communication with preceptor and faculty.
8. Keep all patient and agency information obtained during clinical experiences confidential.
9. Complete all required course assignments.
10. Complete evaluation of preceptor(s).
11. Complete written self-evaluation as outlined in the clinical course.
12. Participate in the evaluation by the preceptor and or faculty of your clinical experience.

**ORIENTATION INFORMATION FOR PRECEPTORS**

College of Nursing has placed orientation information for preceptors on the nursing website ([www.nursing.fsu.edu](http://www.nursing.fsu.edu)). The material available for preceptors include a Handbook, PDF of Preceptor PowerPoint slides. Once the preceptor as reviewed the material and taken the post test, which is acknowledging completion of an orientation material, she/he maybe award 2 Continuing Education Units (CEUs). A printed CEU certificate will be sent to the preceptor upon request. Orientation includes review of Preceptor Handbook and review of PDF Preceptor Orientation or participation in Pod Cast of Preceptor Orientation

**Preceptor Tuition Waiver**

Starting in summer 2021 our preceptors will be eligible to earn tuition waivers for completing 300 clinical precepted hours. If you are interested in receiving tuition waiver or preceptor verification letter for being our preceptor, please follow the link and complete the survey [https://fsu.qualtrics.com/jfe/form/SV_b7WgswhgRdzuEv4](https://fsu.qualtrics.com/jfe/form/SV_b7WgswhgRdzuEv4).

1. The Qualtrics survey will have two boxes to check one for tuition waiver and one for preceptor verification (preceptors can check both). Clinical Coordinator (Dr. Hayes) will receive the Qualtrics surveys and divide them into appropriate area, waiver or verification. She will forward the verification information to Assistant Dean for Graduate Programs (Dr. Porterfield) who will complete the preceptor verification letter. Dr. Hayes will add the preceptor information to an excel spreadsheet in TEAMs for those preceptors who wish to be considered for tuition waiver.

2. Qualtrics Survey content:
   a. Preceptor information: full name, credentials, email, and clinic address
   b. Student precepted: full name, course, semester/year, hours precepted
   c. When do you anticipate using the tuition waiver?

Only Florida Residents are eligible (as stated in the Florida State University Office of Admissions “Florida Residency for Tuition Purposes Policy [https://admissions.fsu.edu/residency/policy/](https://admissions.fsu.edu/residency/policy/)).

**About the Certificate:** Once you have accumulated 300 hours precepting our graduate students you can request a Certificate of Participation which entitles the holder the matriculation fee for up to six hours during one term of instruction, including credit courses offered through continuing education programs, at any State University. The holder will be required to pay all current fees applicable at the time of registration except matriculation fees and comply with all applicable statues and policies of the State of Florida and its agencies regarding admission and registration.
Please note: FSU now requires all non-degree seeking students to apply for admission one month prior to registration. You may request to receive a Certificate each semester you precept a full-time graduate nursing student. However, only one certificate can be issued per semester, regardless of the number of students you supervise.

The following is the needed information to be added to the Qualtrics survey:

Applicable Nursing Course: ____________________
Preceptor inclusive dates: ________ to ________

Student’s name: ____________________________ FSU ID ______________
Preceptor (Your) name: ____________________ Email: __________________
